PRICE THREE CENTS

Withdraw U. S. Men From Rhine

Signing of Peace Resolution Means Yanks Soon Will Leave German Soil.

BIG BURDEN ON TAXPAYERS

Peace Resolution Does Not Force Harding to Call Soldiers Home.

By United Press Leased Wire Washington—American forces in Germany will be withdrawn within the next few weeks as the result of the final enactment of the peace resolution. Representative Anthony J. Drexel Biddle, in charge of army appropriations in the house said Tuesday.

"Now that the peace resolution is passed the troops should be withdrawn at the earliest possible date," said Anthony.

"They have been a big burden on the American tax payers, although the understanding was that Germany was to pay all expenses. The cost of the army of occupation has been about \$275,000,000. Germany has paid about \$30,000,000, according to my information, and the balance has come out of the treasury."

The view of the state department is understood to be that there is nothing in the peace resolution which obligates Harding to withdraw the American forces from Germany at the present time.

The resolution, officials hold, expressly provides that all rights and benefits of the United States such as the authority to hold troops in Germany that are given under the armistice and the treaty of Versailles are safeguarded under the declaratory peace by congress.

By United Press Leased Wire Washington—By three votes the senate Tuesday rejected a resolution by Senator Lodge, republican leader providing for a four weeks recess from July 9 to August 8.

The vote was 54 to 27. Sixteen republican senators voted against the recess and five democrats voted for it.

At Senator Underwood's suggestion, Lodge amended the resolution to let the recess last from Saturday July 9 to Monday, Aug. 8, a week longer than provided for in the original resolution.

Washington—The senate "agricultural bloc" was ready Tuesday to fight to a finish any congressional recess plans proposed by Majority Leader Lodge.

Republican leaders were determined to force through the 60-days vacation program and a bitter contest was in prospect.

Senators from the farm states assert that the senate should make use of the time before the tariff bill comes over from the house to enact legislation for the relief of agriculture. Senator Lodge takes the position that much of the proposed legislation is useless and unnecessary.

While not a member of the "bloc" Senator Borah, Idaho, is a powerful ally. He insists that his bill to relieve American ships from Panama canal tolls shall be passed this summer.

This small but obstinate group will reject any and all proposals for a recess. If they take a vacation it will be forced upon them. Senator Lodge, however, is said to have sufficient votes to carry the recess resolution.

CANADIANS APOLOGIZE FOR INSULT TO U. S. FLAG

By United Press Leased Wire Hamilton, Ont.—Joe D'Olivares, American consul in this city, has received an apology from Mayor Copley on behalf of the citizens of Hamilton for the "flag incident" which occurred Friday.

The Stars and Stripes were flying from the consulate window on King street west in honor of dominion day when a young man ripped it partially off the pole.

The young man responsible for the trouble is said to be the son of a government official in Hamilton. His name is withheld.

TWO WOMEN FACE TRIAL FOR MURDERING JUDGE

By United Press Leased Wire Tulsa, Okla.—Tricks of Goldie Gordon, artist, model, and Mrs. Jessie Tamm, twice married to wealthy Oklahoma Indians, for alleged murder of Judge Devereaux, aged jurist, started Tuesday.

Both women were dressed stylishly when they appeared in court.

Devereaux was found dying in a local hotel, a wound from a blunt instrument on his head. Evidence that he had been poisoned was also found.

IRISH PROBLEM NEAR SOLUTION AT CONFERENCE

Sinn Feiners, Ulsterites and British Agents Are Getting Together.

By United Press Leased Wire London—Settlement of the centuries old Irish question appeared definitely in the making Tuesday. Sentiment in favor of a quick definite solution was growing among the three groups constituting the triangle—the Sinn Feiners, the Ulsterites and the British government.

Jan Smuts, premier of South Africa, regarded as one of the strongest figures in the empire arrived in Dublin Tuesday. While Smuts does not officially represent the British government his recommendations will have almost unlimited weight not only with the government but with the council of dominion premiers.

Smuts' mission is understood to have been taken up on invitation of the Sinn Fein presumably to advise with Irish officials on the formula of settlement terms and to continue in an advisory capacity during the progress of negotiations. The highest hope is held for the conference of Eamonn De Valera with representatives of the unionists which will be resumed Friday.

De Valera will be asked to come to London to confer with Premier Lloyd George and the dominion premiers and listen to the government's proposal. This he will submit to the Irish people for acceptance or rejection, thus actually permitting them to exercise the right of proscriptive.

The Irish office insists that the limit on this offer expires July 12, after which "the iron heel of military action will be applied."

In Monday's conference, De Valera was accompanied by Arthur Griffith, Ulster was represented by Arthur Jameson, Sir Maurice Dockrell, Sir Robert Woods and Earl Middleton. The meeting occurred in the mansion house which was decorated with United States flags in common with other Dublin buildings, in honor of American independence day.

The conference began at noon and continued four hours without interruption. During the day prayers were said in the Catholic and Protestant churches for success of the deliberations.

While Sir James Craig, premier of Ulster, who refused Lloyd George's original proposal for a joint conference with De Valera in London, was not present, it was stated authoritatively that his views were presented by southern unionist spokesmen.

By United Press Leased Wire Milwaukee—Eleven persons are dead here as the result of Fourth of July celebrations.

Six persons were drowned in the Milwaukee river and the Waukesha county lakes.

Three persons died following heat prostrations.

One was killed in an automobile accident and one succumbed to injuries received by the explosion of a giant firecracker.

Twelve died in Boston.

By United Press Leased Wire Boston—Twelve persons lost their lives celebrating the Fourth of July in New England, according to reports Tuesday.

All the dead were drowned. Many others suffered from powder burns while using fireworks.

SEND U. S. GUNBOATS TO OIL FIELDS OF MEXICO

Washington—Two American gunboats have been sent to Tampico, Mexico, to guard against any possible trouble in the oil fields there. Secretary of the Navy Denby announced Tuesday.

The recent announcement by the Standard Oil company that they were withdrawing their tankers from carrying oil out of Tampico aroused fear that some trouble might arise from men being thrown out of work, Denby said. The ships sent to Tampico were the Sacramento and Cleveland, the first from Cristobal and the canal zone, and the latter from Galveston.

The Standard Oil company is withdrawing its tankers, according to its announcement because of the recent imposition by President Obregon of a 25 per cent export tax on Mexican oil.

STILLMAN POSES!

James A. Stillman took elaborate precautions to prevent the news photographers from snapping his picture when he went to court at Poughkeepsie, N. Y., to testify in his suit for divorce. He entered the building by a cellar passage leading through the boiler room, and he tried to get out unseen through an alley. But the camera men were too fast for him so he finally gave up and posed. Here's the picture.

4 VIOLENT DEATHS ON INDEPENDENCE DAY

(Special to Post-Crescent)
Green Bay—A street car, an automobile and wood alcohol brought tragedy to Green Bay. Four violent deaths was the toll of this city's celebration on July 4.

Mr. and Mrs. John Demer, 87 and 86 years old respectively after spending the day at Bay Beach were on their way home when they stepped out of the way of an automobile and directly in the path of a street car. The husband was killed instantly and the wife died by the side of the road 15 minutes later.

The authorities are investigating the death of a man known as "Red" DeLaney thought to be from Michigan. It was at first thought he might have been slain and thrown from an auto, but indications point to wood alcohol poisoning. The body was found on the lower DePere road.

The fourth victim was John McNamara of Green Bay, run over by an automobile at Channing, Mich. and almost instantly killed.

REFORMERS ARE PEEVED OVER SATURDAY'S BOUT

By United Press Leased Wire Jersey City, N. J.—"Jack Dempsey is an old offender," said Dr. Wilbur Crafts Tuesday discussing the reform bureau's plans for the indictment of the world's champion on assault and battery charges, following his knock-out of Georges Carpentier last Saturday.

The advertised meeting which was to lay plans for the indictment of Dempsey and the impeachment of Governor Edwards of New Jersey, resulted in the attendance of one man, Dr. Crafts himself.

"Someone high up is going to be punished," was as definite a statement he would make.

"Dempsey is guilty on three counts. He violated the crimes act, the boxing law and committed assault and battery. More over he is an old offender. He has assaulted many people and broke the boxing law at Toledo two years ago."

AIR MAIL PLANES WM FLIGHT WITH FIGHT FILMS

By United Press Leased Wire San Francisco—The race across the continent with the first pictures of the Dempsey-Carpentier fight resulted in a three hour victory for the United States air mail.

Local papers published in editions late Monday pictures of the fight—less than 48 hours after the knockout.

The air mail delivered the pictures here in 44 1/2 hours, a record for trans-continental transportation.

Pictures for the coast were dispatched by three newspaper picture services by air mail and also by private airplanes, reinforced by special trains.

9 KILLED IN BLAST OF BIG OIL TANKS

By United Press Leased Wire Whiting, Ind.—Two huge steel stills used for production of gasoline at the Standard Oil company's plant here burst scattering flaming oil and gas over a radius of 200 yards and taking a toll of nine dead and forty-two injured, Monday.

The property damage was placed at approximately \$2,000,000.

The blast was caused by a leak in one of the gas tanks. The leak caught fire and almost instantly the brick walls enclosing the still collapsed.

A sheet of burning gas was spread blanket-like over the ground. One of the 60 men working nearby, only a few escaped injury. Six of those who were killed were working close to the stills. They died almost instantly, their bodies burned beyond recognition.

Police, ambulances, nurses and other officials from the Calumet region were rushed to the scene of the disaster. Emergency treatment was given to the injured and then they were removed to Chicago hospitals.

According to those near the scene, there were two blasts. One of the tanks was split asunder and one-half of it, weighing several tons was hurled 100 feet against a second still.

BELIEVE STOWAWAY IS MAN WHO STOLE MILLION

By United Press Leased Wire New York—Suspected of being the man who was reported to have escaped from Russia with \$1,000,000 a fortnight ago, a stowaway who gave his name as Jacob Grunwald, was detained aboard the Scandinavian liner Fredrick VII which arrived here Tuesday.

The advertised meeting which was to lay plans for the indictment of Dempsey and the impeachment of Governor Edwards of New Jersey, resulted in the attendance of one man, Dr. Crafts himself.

"Someone high up is going to be punished," was as definite a statement he would make.

Dempsey is guilty on three counts. He violated the crimes act, the boxing law and committed assault and battery. More over he is an old offender. He has assaulted many people and broke the boxing law at Toledo two years ago."

The air mail delivered the pictures here in 44 1/2 hours, a record for trans-continental transportation.

Pictures for the coast were dispatched by three newspaper picture services by air mail and also by private airplanes, reinforced by special trains.

HARDING STILL UNDECIDED ON A FOREIGN POLICY

Efforts to Steer Clear of Wilson Policies Keeps President in Hot Water.

BORAH GROUP IS WATCHFUL

Bitter-Enders Want Administration to Forget All About European Matters.

BY DAVID LAWRENCE Copyright, 1921, by Post Pub. Co. Washington—American foreign policy under the Harding administration is still an undetermined fact. President Harding himself doesn't know exactly how peace with Germany will be reestablished.

Neither does Mr. Hughes know the formula. The highest spokesmen of the administration officially admit that they do not yet know which paths they will choose in seeking to placate the United States from the anomalous position in which our foreign policy has been ever since President Wilson declined to accept the reservations of the Republican senate to the Versailles treaty.

For several days there have been whispers that Mr. Harding would re-submit the Versailles treaty with explicit reservations excluding the league of nations covenant and all other clauses that might involve the United States in any obligation to enforce the treaty. The wrath of the "irreconcilable" group in congress, which is just as much opposed to the treaty as to the league slowly gathered. The whippers have grown softer.

No longer is it repeated that the president has determined upon a course of action. The only thing that is said is that Mr. Harding's words in his last message to congress have not been withdrawn. He declared it would be "for the United States" to engage under the existing treaty "rather than to negotiate a new treaty."

Carving the Treaty. Secretary Hughes has been carving the Versailles treaty. It has been a painstaking job. He has done it quietly and without publicity. He hasn't finished. The big question of whether it is practicable to handle the matter by submitting the Versailles treaty with reservations has not yet been answered and there is a lingering hope among the irreconcilables that Mr. Harding will not find it "wise" to engage under the existing treaty but will make a new treaty after all Mr. Harding has insisted that the next step was the negotiation of a treaty of amity and commerce with Germany. The American government could include as many provisions of the Versailles treaty as desired and yet not have the document labeled "Versailles treaty." But then the question arises as to whether the United States is entitled to the rights of victorious possession which the allies claim were given the United States along with the allies only upon condition that the Versailles treaty be ratified. In other words the rights are no longer Germany's but have been handed to the allies and the contract in which Germany gave these rights away is the Versailles treaty.

Mr. Hughes' ability as a jurist comes in handy and he has already solved many a knotty question of law in the department of state. His logical mind made a simple case of the mandate controversy and reduced the Mexican question to a plain statement of law.

But July 1 is here and the foreign policy of the administration as it enters the second half of the year has not been defined largely because of a fear of conflicting elements in the senate on the one hand and an effort to steer clear of the Wilson policies. To date therefore the Harding administration has found it necessary to use the supreme council as a means of communication with the rest of the world and when it comes to expurgating the Versailles treaty of those provisions which vested the settlement of certain questions in the council of the League of Nations, the American proposal is by no means a new one.

Some of those who have been opposed to the ratification of the Versailles treaty in any form are wondering why Mr. Harding bothers with the Versailles pact or anything European and doesn't forget Europe altogether but since coming into office Mr. Harding has found that the payment of the ten billion dollars owed us by Europe is a question that must be settled in the near future and that matter is in turn vital part of the Versailles treaty. To safeguard America's finances and to enable the American people to redeem their Liberty bonds at somewhere near their original price the Harding administration is playing as close to Europe as possible without involving America in pledges to participate in future quarrels abroad.

The only thing that has been done so far in shaping the foreign policy of the United States is the decision to stand alongside the allies and work out an understanding with them whereby American interests will be protected. The Versailles treaty is still on the desk of Mr. Hughes in the department of state, the plan for a Harding administration of nations is still in the making.

By United Press Leased Wire New York—Fifteen thousand delegates, representing eighty thousand Christian Endeavor societies throughout the country and the world, gathered in this city Tuesday for their sixth world's convention.

Delegations from the old world and from some of the new countries born since the war mingled with those from every corner of the British empire, while each little Christian Endeavor organization in this country was represented.

By United Press Leased Wire Rome—Catholic workers of the world were warned against "false prophets" by Pope Benedict after he had said mass for them.

These "false prophets" the pope said, are endeavoring through propaganda to discredit religions and "make them tarry and atheism."

Heat Is Cause Of One Death And Prostration

JAPAN DENIES TREATY IS AIMED AT AMERICA

By United Press Leased Wire Tokyo—Denial that the Anglo-Japanese alliance can be construed as being aimed against America was made in a long statement issued Tuesday by the Japanese foreign office.

"By no stretch of the imagination can it be honestly said that the alliance was ever desired or remotely intended as an instrument of hostility or even of defense against the United States," the statement said.

"It is the firmly held determination of Japan to permit nothing to hamper her traditional relations of good understanding with the United States."

By United Press Leased Wire London—Propaganda and agitation among the rank and file of the craft unions of the United States for an industrial revolution is urged by "Big Bill" Haywood, I. W. W. leader.

"This work is being carried on in a limited way by the Industrial Workers of the World," he declared in an article in the "Moscow" a new bolshevik organ.

Haywood, who forfeited his bail bond by going to Moscow while awaiting the result of his appeal from a twenty year sentence for violation of the espionage act, has announced that he will soon return to serve his sentence.

By United Press Leased Wire Chicago—Post mortem of the 1919 world series started Tuesday.

Trial of "baseball's outlaws" and alleged gamblers became an actuality Tuesday when Judge Hugo Friend overruled the motion of the defendants to throw the cases out of court. He ordered picking of the jury to proceed.

Seven former White Sox stars and four alleged gamblers faced the court charged with selling out the world series between the Chicago White Sox and the Cincinnati Reds.

As the twelve umpires of the indoor baseball game was being picked, it developed that the "master minds" of the alleged plot may escape without punishment.

The state announced that search of the country by scores of detectives for those alleged to have hatched the plot had been futile.

Ring W. Lattimer, humorist and sports writer, is to be one of the important witnesses for the state. It was announced Ring is to tell the "gents on the jury" what he knows of the baseball scandal.

Heads of organized baseball and many others are to testify for the state. The defense will produce records of the games in dispute to show they played better ball in the world series than ever before.

By United Press Leased Wire Cleveland—If one woman is permitted to remain on the jury which is to try Mrs. Iva Catherine Kaber for the murder of her husband, Daniel I. Kaber, wealthy Lakewood, Ohio, publisher, the United States supreme court will be called upon to decide if women legally can serve on such a panel anywhere in the United States.

Attorneys for Mrs. Kaber made substantial Tuesday an examination of prospective jurors was resumed.

If there should be a conviction the presence of a woman on the jury will be used as the basis for an appeal which will be carried to "the highest court in the land," if necessary.

Four women are already included among the nine tentative jurors so far selected and ten more are included in the second venire of 100 awaiting examination.

By United Press Leased Wire Eau Claire, Wis.—The new \$500,000 Hotel Northern at Chippewa Falls was won Monday night by Peter Lehman, Junction City, Wis., at the drawing that climaxed the great mardi gras celebration, which has been in progress at that city during the last eight days.

Number B-67 was the winner. Lehman was in a pool of 25 and someone's hotly becomes the property of these.

HAYWOOD IS URGING INDUSTRIAL REVOLT

By United Press Leased Wire London—Propaganda and agitation among the rank and file of the craft unions of the United States for an industrial revolution is urged by "Big Bill" Haywood, I. W. W. leader.

"This work is being carried on in a limited way by the Industrial Workers of the World," he declared in an article in the "Moscow" a new bolshevik organ.

William Kellner Dies From Heart Disease Brought on by High Temperature.

BUILDERS LEAVE THEIR JOBS

Little Relief for Middlewest States—Heat Wave Is Broken in East.

Old Sol's concentration of heat rays in Appleton is beginning to exact its toll. One death has been reported, that of William Kellner, an employee of the Wisconsin Traction, Light, Heat and Power company, who was overcome while riding home on an interurban car Saturday afternoon. Kellner's death was caused by heart disease, superinduced by the temperature.

John Pozobol, 26, employed at the Chicago and Northwestern tracks unloading crushed stone, also was overcome about 1 o'clock Saturday afternoon. The ambulance was summoned and the man taken to the police station, where a physician revived him. Mr. Pozobol then rested for a brief period and was taken to his home on Spencer-st. He suffered no ill effects.

Saturday, Sunday and Monday were believed to be the hottest days of the year, with the temperature close to 100 degrees in the shade of 94 to 96 degrees in the shade Tuesday noon, with the heat gauging in intensity.

Workers Leave Jobs. Albert Frank and Gustave Rafko and Fred Poyer of C. R. Meyer and Sons company, who were employed on the addition to Elk club, were obliged to quit work about 10 o'clock Tuesday morning to avoid sunstroke. Working on wooden frame molds for the concrete foundation at a point where there was no breeze, the men retired when they felt the first symptoms of heat prostration.

Crows on the Brettschneider, Brandt and Wisconsin Telephone company's buildings all were working above ground and were able to finish their day's work. A south breeze, although not cooling in its effect, minimized the fierce rays of the sun.

"The thermometer on the north porch of my residence registered 94 degrees at noon Tuesday," said E. C. Wolter, who wishes the temperature closely. "This is the highest it has registered in a decade." The porch is protected by shade trees and the residence is on a ridge level with the cupola of the courthouse, so the family seldom suffers with the heat. At 7:30 Monday morning the Wolter thermometer showed 85 degrees; at 7:30 Tuesday morning, 85 degrees.

Some consolation may be offered to the victims of the longest heat spell in the history of the weather bureau, Washington, where it is announced that cooler weather is due in some parts of the United States. The heat wave already is broken in the north Atlantic states.

Hot weather is in store for some portions east of the Mississippi, but cooler air is fanning the northern and eastern part of the territory. This is coming from the north and will keep the heat wave in subjection for some time, the forecaster said. A great mass of super-heated air is hanging over the interior states and there is no telling just when relief will come.

BEAT UP POLICEMAN AT CHICAGO BATHING BEACH

By United Press Leased Wire Chicago—Patrolman Patrick Hanrahan was brutally beaten Tuesday when he attempted to eject three men and two women from a south side bathing beach.

3,000 ATTENDED FORESTER PICNIC

Contests, Dancing and Baseball Game Provide Amusement to Thousands.

The picnic given by the Catholic Order of Foresters at Pierce park in Independence day was attended by fully 3,000 persons. The crowd was much larger than was anticipated and for that reason the refreshment committee ran out of supplies several times during the afternoon and evening.

The procession formed in front of Forester home at 1:30 p. m. headed by the One hundred and twenty-first artillery band and marched to the park. Stands, tables, benches and a pavilion were provided and an old-fashioned picnic was enjoyed.

Various contests were held which opened with a ball game between Oshkosh and Appleton which was won by the visitors, 17 to 2. Among the other contests were 50 and 100 yard dashes, bag race, pie eating contest, peanut races and nail driving contest.

The celebration was the first public demonstration held in the park since it was purchased by the city. The pavilion was used for dancing in the evening. Hop's orchestra furnished the music. At one time over 200 automobiles were counted in the park and they occupied only a small corner of it.

BIRTHS FALLING OFF IN GERMANY

Marriage Rate Decreasing Because of Extreme High Cost of Living.

By Milton Brouner
Special to Post-Crescent

Berlin.—"Notice my finger. You see no wedding ring on it. You are not liable to, either. With the present cost of living and the present scale of salaries, I can't afford to get married."

"There are tens of thousands of young men and women in Germany who, under ordinary conditions, would be home builders. They would have children. They would build the future Germany."

"But now they are at loose ends. There are two fatal and immediate effects:

"First, a lower moral fiber and an increased immorality.

"Second, a decreasing birth rate."

The man who said these things to me was one of the high officials in the bureau which controls all the schools in Prussia.

He was voicing the hopes and fears of thousands of other German men and women.

Deaths Exceed Births

While latest figures show an increase of marriages over the extreme years of 1915 and 1916, they also show that Germany is getting into the condition France was in for so many years.

The deaths have exceeded the births so that the net population of the country has shown a decrease.

In the last full year before the war, 1913, there were 513,283 marriages in Germany. The births in that year were 1,894,598. The deaths were 1,060,798, so that the excess of gains over losses in population was more than 800,000.

In 1918, the last year for which complete reports are to be had, the marriages were 835,543. The births were 955,851 and the deaths, exclusive of those lost in the war, were 1,256,133, or an excess of deaths over births of about 300,000.

Some German papers have asserted that the excess of deaths over births for 1919 was 900,000, but there is no official report on the subject.

Another Worry

But the mere decline in birth rate is not the only thing in connection with vital statistics that is troubling the German authorities.

Their big terror is that children who are born are not strong, that many of them die at an early age, that tuberculosis is showing a big increase, and that the children who survive various infantile and other ailments, in many cases grow up to be rickety or otherwise physically imperfect men and women.

You don't have to take the word of the Germans as to the condition of the children. All you have to do is to wander around German cities.

You see pathetic crowds of mothers waiting at the doors of the free clinics to get medical attention for their babies.

You see lines waiting wherever some charitable organization has undertaken the job of giving or selling at low cost food that children need. Above all, you see the little ones themselves, pale, often almost yellow, with thin legs and narrow chests.

GRANT PERMISSION TO SELL RAILROAD

The Interstate commerce commission, in an order signed June 29, has granted permission to sell the Wisconsin and Northern railroad line to the Soo line, according to information received here. The order has not been made public nor has it been received at Madison.

Application for authority to make the sale was requested several months ago and hearings were held in Madison in which considerable opposition to the transfer was voiced. The Soo line recently requested permission to issue mortgage bonds to finance the purchase of the line.

Miss Agnes McDonough has left for New York to spend four weeks with her sister, Miss Rosella McDonough, who is assistant chief nurse at Fox Hill hospital, Staten Island, N. Y.

CONFERENCES ON DISARMAMENT WILL BEGIN NEXT FALL

England and France Have Shown Considerable Sentiment for War Holiday.

By H. B. HUNT
(Special to Post-Crescent)

Washington.—Definite negotiation of an agreement limiting the armaments of the United States, Great Britain and Japan will be under way by early fall.

That is the belief of men most closely in touch with disarmament activities.

The past two weeks have seen a greater advance toward an international disarmament conference than any period since the Peace Conference.

Not only from Great Britain, but from Japan, have come favorable unofficial responses to "feelers" respecting the possible limitation of armaments.

The importance of the disarmament issue may be understood when it is placed on a straight dollar and cents basis with respect to each individual.

With their nations tax-burdened with debt as a result of the war, and with economic conditions still topsy-turvy, people everywhere are demanding an end to mounting government expenditures.

This demand is making even the militants in other countries heed.

In the United States, for instance, on a per capita basis, each family must contribute \$35 this year toward the army and navy. That is \$7 for each man, woman and child of our 105,000,000 people.

The new army and navy bills, combined call for military and naval expenditures from June 30, 1922, of \$740,000,000. Of this, \$330,000,000 goes to the upkeep of the army; \$410,000,000 to the upkeep and expansion of our navy.

It is 141 per cent more than was appropriated for combined army and navy expenses in 1914, on the eve of the European war, and 188 per cent more than army and navy appropriations in 1916, when Europe had been at war two years and indications were that we would become involved.

In other words, where we were spending \$2 for army and navy in 1914, 1915 and 1916, next year we will spend \$5.

Naval appropriations will be, in round numbers, three times as great next year as for 1914. For each \$1 spent on our navy in 1914, 1915 and 1916, we will spend \$3 in 1922.

In this expansion in naval expenditures, however, Uncle Sam is only about holding his comparative place in the great naval handicap.

Great Britain's naval appropriations for 1921 approximately doubled those for 1914, and almost exactly equal our appropriations for 1922.

In 1914 the British navy cost that government \$237,530,000. In 1921 it cost British taxpayers \$410,597,000.

Japan spent only \$49,550,000 on her navy in 1914. By 1921 this sum had almost tripled, the Japanese naval budget calling for \$124,800,000.

Italy increased her naval appropriations for 1921 to \$78,359,000, from \$49,550,000 in 1914, and France boosted hers to \$174,529,000 from \$90,164,000 in 1914.

These figures show that the recent war, far from ending the race for powerful fighting forces, only marked the beginning of an intensive naval development. Only three endings are possible, it is declared—the breeding of new rivalries and jealousies and another war; international bankruptcy; an agreement between nations restricting armament.

HARDING STILL UNDECIDED ON A FOREIGN POLICY

(Continued from Page 1)

on the executive desk in the White House, and the effort to bring about an agreement to limit armaments is still in the hands of America's representative to the supreme council, Ambassador George Harvey, who has confined himself to informal discussions. The United States at any rate has not proposed any disarmament plan to the other nations or taken the initiative in insisting that the subject be discussed at a conference of powers. The greatest task of foreign policy still lies ahead of President Harding and Secretary Hughes, both of whom give the impression that they are proceeding with caution and as speedily as they think prudent under the circumstances.

NICHOLS CELEBRATES INDEPENDENCE DAY

About 5,000 people attended the Independence day celebration held at Nichols. The Drexel and North Cicero Equity gave a large picnic. Auto races, horse races and novelty contests provided entertainment.

A baseball game was played between Shiocton and Nichols in which the visitors were victors. A big dance was held in the evening to which 265 tickets were sold.

MUST BREAK RAIL JAM TO PUT U. S. ON NORMALCY ROAD

Western Bankers Oppose Eastern's Suggestions for Making Foreign Loans.

Washington.—The railroad log-jam, President Harding has decided, must be broken before there can be any return to normalcy in American business and industry.

That was the advice given him by the score of western bankers who dined at the White House recently and discussed with him the nation's financial and business health.

These men painted no pleasant picture. They told the president of unemployment, of shrinking bank balances and depleted savings accounts, of lessened production and lessened buying power. And they added: "We'll soon be heading into a hard winter. We've got to start somewhere to pick up the dropped stitches of industry, and the place where we believe the thread can most effectively be taken up is at the railroads. Through the railroads, the government can apply a remedy that will tone up the whole business system."

Oppose Foreign Loans

These bankers opposed the suggestion of eastern bankers, who preceded them by two weeks at the White House. These bankers urged the making of further large loans—on which they would get a commission—to foreign countries, contending America would benefit by the general betterment of world commerce.

The western bankers said the immediate financial aid should be applied at home and not abroad.

The farm credit situation, they told Harding, is greatly improved, about 75 per cent of loans made to farmers having been liquidated. But business generally is in the dumps.

Gist of Situation

The whole situation, the president was told, can be straightened out without congressional action or delays. Briefly, the situation is this: The railroads are in debt to the government some hundreds of millions of dollars, for improvements made during the period of government operation.

The government owes the railroads similarly large sums for rentals and in guaranteed returns.

The government will not pay these sums until the railroads pay. But the railroads cannot finance these payments. Also, until they collect the payments they hold to do due from the government, they cannot pay their bills.

These bills are owed to lumber, tie, rail and supply dealers generally all over the country.

These men, unable to collect from the railroads, are unable to pay their bills, and so business is jammed up all along the line.

Bankers' Remedy

The government, under existing law, the president was told, has authority to fund the capital investment made in the railroads for not to exceed 10 years.

If that were done and payment made the roads of sums due for rental and guarantee, things could start moving.

Until it is done—or until the roads get money with which to pay their bills and begin repairing cars and replacing tracks—things will remain in a jam.

THE BROWN VICTIM OF MALARIAL FEVER

Health Talk No. 26
By Jas. A. Rolfe, D.C.

The skin has a dark tinge in malarial fever. It is the disease commonly known as "chills and fever." The victim has a feeling of uneasiness and then a shaking chill. The teeth chatter. The skin is cold, but internally there is fever, which soon becomes manifest. The temperature rises, and the skin now becomes excessively hot.

The cause is interference with nerve impulses to the stomach and kidneys. The stomach becomes heated and digestion is disordered. The bowels are constipated, and urine is highly colored. Chiropractic spinal adjustments restoring normal action to the stomach, bowels, and kidneys, enables the system to throw off the poisons. The languor, headache and dullness disappear. Adjustments remove the cause. Malarial victims find the annual attack the next year fails to appear.

GIRLS! LEMONS BLEACH SKIN WHITE

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate. adv.

EVE'S SISTER IS TAKEN TO LONDON

Oldest Mummy in World is Found in Sun Baked Sands of Egypt.

By A. J. West
London.—Eve's sister has arrived in London.

She lies in a square deal packing-case in the Egyptology section of the University College, Gower street, and she doesn't mind in the least being called the oldest young woman in the world.

Professor Flinders Petrie, who has been reawakening the centuries in Egypt, has just brought this mummy to London. She is at least 8,000 years old. Beside her Moses is quite a modern young fellow, and to her the twelve Caesars are but as yesterday.

She lived in pre-dynastic Egypt, long before history had begun. She was thousands of years before the Pyramids and before men clipped on stone the record of their lives and times. Although other pre-dynastic skeletons have been discovered in Egypt, this is the oldest preserved body of a woman ever known.

Experts say she was about twenty years old when she died. She lies with her knees drawn up to her chin and one hand resting before her mouth. Her preservation is due to exposure in the sun. She has been sun-dried and then left in the sands of Egypt while empires rose and fell and centuries like tides, washed over the world.

Most of her bones are exposed, a pale amber color, and here and there a few inches of neatly woven cloth adheres to them—her 8,000-year-old gown! Her head is wonderfully preserved. Her eyes were large, her forehead broad, and she was certainly a tall, slim girl.

The mummy, in which she lies, contains some beautiful, soft Egyptian fabrics. Perhaps some night a poor little ghost will be seen looking for a new dress, because at the moment Eve's sister is by far the worst dressed woman in London.

DEATHS

MRS. CAROL SMITH
Mrs. Carol Louise Smith, wife of Robert H. Smith and daughter of Prof. and Mrs. Otho F. Fairfield, died on the evening of July 4 at the home of her parents, 502 South-st., after a painful illness of three months following a serious surgical operation.

Mrs. Smith was born Nov. 28, 1888 at Alfred, N. Y., and has lived in Appleton since 1908. She is a former student of Appleton high school and of Lawrence college. She was married June 15, 1910 to Robert H. Smith and has made her home at 484 John-st. She is survived by her husband, parents, a baby boy, a sister and brother.

The funeral will be held at 4:30 Wednesday afternoon at Riverside chapel.

MRS. W. M. HEID
Mrs. Wallace Muench Heid died of infirmities Sunday evening at her apartments at 777 College-ave. She had been a resident of the city for many years and is survived by two children, William Muench of Columbus, O., and Mrs. John Kuehlman of Superior.

WILLIAM KELLNER
Stricken with heart disease superinduced by the intense heat while riding on the street car on his way home from work Saturday afternoon, William Kellner, 68, of 1448 Commercial-st., died while being hurried to a doctor.

Mr. Kellner was born in Niederschlaen, Germany, Oct. 25, 1852 and came to this country early in life. He

had been in the employ of the Wisconsin Traction, Light, Heat and Power Co. for some time.

He is survived by his wife, two sons, and five grandchildren. The sons are August of Appleton and William of Dorchester, Wis.

The funeral will be held at 1:30 Wednesday afternoon from the house and at 2 o'clock at St. Paul church. The Rev. T. J. Saner will conduct the services. Burial will be in Riverside cemetery.

GOVERNMENT WINS TEST CASE OF TAX ON PROFITS

By United Press Leased Wire
Grand Rapids, Mich.—The case of the United States against Serol Powers, wool merchant of Nashville, Tennessee, in which the government sued to recover \$2,370 in profits in excess of 1 1/2 cents a pound, was decided in favor of the government by Federal District Judge Sessions here Tuesday.

The case was a test and effects a large number of wool wholesalers and distributors throughout the United

UNION LEADERS STILL ARE DISCUSSING WAGE

Chicago.—One thousand leaders unions were still in conference Tuesday discussing the 12 per cent wage cut ordered by the United States road board for July 1.

It was expected that the union would issue a statement late Tuesday accepting the cut, which amounts to \$400,000,000 a year.

States, L. S. Hubert, assistant to the solicitor for the United States department of agriculture, said.

APPLETON QUIET ON SAFE AND SANE INDEPENDENCE DAY

Sizzling Heat Sends Hundreds of Persons to Seek Comfort at Lake.

With the city sizzling under the hottest sun of the season, Appleton observed Independence day in a quiet manner, adhering closely to the modern policy of a safe and sane holiday. There was noise enough all through the day and evening to indicate that the children were having their fun with what fireworks may be bought under the new state laws.

Few burns or accidents were reported from fireworks. The calls usually received by the fire department because of carelessness were absent. Not a wheel was turned at either of the stations during the entire holiday period. The police department was busy enforcing the regulations. Three revolvers were taken from young men who were discharging them and several hand made cannons were taken from boys.

Picnic places and beaches were popular. Thousands flocked to Elmer park, or to Lake Winnebago points seeking relief from heat. The traction company was kept busy until the late hours accommodating the crowds, running cars in groups of three and four. A number of people attended Neenah's homecoming, and many sport fans attended the ball game and wrestling match at Brandt park.

No tragedies marked the day, although there were several automobile accidents and some heat prostrations.

Automobiles owned by Edward Pagel, Black Creek, and Clarence Zastrow, Algoma, collided at the corner of College-ave. and Oneida-st. Sunday afternoon. The latter car had its fenders and tires damaged. None of the occupants of either machine was injured.

HIGHER GAS RATES BECOME EFFECTIVE

Gas service in Appleton has shown so much improvement that the Wisconsin railroad commission has ordered the new gas rates granted a few months ago to become effective July 1. This ruling applies only to Appleton. The new rate is an increase of 25 cents per 1,000 cubic feet over the old.

The commission in its order stated that of the seven requirements for better service set down by the commission last May, requirements No. 1, 2, 4, 6, and 7 have been complied with entirely and requirements No. 3 and 5 are being met. The commission said the order had been "substantially complied with."

MENASHA-NEENAH NEWS

BIG CROWD ATTENDS JULY 4 CELEBRATION

Neenah and Menasha Observe Independence Day—Car Goes Over Embankment.

Menasha—The Riverview baseball nine of Menasha was defeated by the Northwestern team of Oshkosh Monday morning by a score of 5 to 1.

Sgt. James Harder of the Chicago police force visited Menasha friends Monday on his way up to his summer home at Eagle River.

Edward X. Vorse of Milwaukee is visiting relatives at Menasha.

Frank Schiller of Chicago visited Menasha friends the past few days.

A large crowd attended the Fourth of July picnic given by the St. Mary church congregation at the Menasha city park.

John Hammer of Waupaca is visiting Menasha friends.

Mr. and Mrs. Frank Magalska returned from a visit in Milwaukee.

Mrs. Helen Jung, Tayco-st., Menasha sprained her arm when she slipped and fell at her home Saturday evening.

Miss Grace Kelly returned from a visit at Sparta, Wis.

Saturday evening at the home of the Rev. C. W. Heywood, pastor of the Methodist church at Neenah, occurred the marriage of Miss Nettie Lenz daughter of Mr. and Mrs. Henry Lenz, 127 First-st., Menasha, and Joseph W. Mason of Neenah. The bride wore a white satin gown and carried a bouquet of Ophelia roses and sweet peas. The couple was unattended.

The newlyweds are at home at 151 Main-st., Menasha. The groom is the manager of the Western Union Telegraph office at Menasha.

A Ford car owned and driven by Michael Mack, 426 Water-st., went over an embankment on Washington-st. Monday afternoon. The driver of the machine lost control. No one was injured and the car was not damaged.

Sunday evening a revolver bullet smashed a rear window in the home

COURT AWARDS \$30 FOR DAMAGES TO BICYCLE

Neenah—Arthur Gunderson, son of Mr. and Mrs. Charles Gunderson, Neenah, was awarded a judgment in the amount of \$30 in Justice of Peace William J. McCallum's court. The suit was the result of an accident at C. & N. W. railroad crossing on North Commercial-st. when the Great White Way Shows were unloading. The boy's bicycle was smashed by one of the carnival wagons.

George Raasmussen and J. B. Schneller returned from Eau Claire where they were delegates to the American legion convention.

Mrs. J. H. Born of Chicago, is visiting at Neenah with relatives.

Mrs. C. B. Clark entertained at a dinner dance at the Valley Inn Saturday night. The nurses of the Theda Clark hospital were guests.

Mrs. John Beyer was removed to Theda Clark hospital for treatment.

D. A. Judd of Wausau spent the week-end in the Twin Cities.

John Bayer, Milwaukee-st., Menasha. It is believed some one celebrating the Fourth of July fired the shot. No one was injured in the house.

A son was born to Mr. and Mrs. Walter J. Piel, Milwaukee-st., July 4.

TWO BOYS INJURED BY TORPEDO EXPLOSIONS

Cloyd Nelson, 9 year son of E. A. Nelson of Neenah, injured his eye Monday when a torpedo flew back into his face scattering powder into his eye.

A similar accident is reported to Elmer Kaddatz, 11 year old son of Albert Kaddatz of Shiocton. The extent of the injuries has not been learned.

Appleton In Early Days

C. A. Fardece
I came to Appleton with my parents in 1867 from Waukesha county. My father started in business here. As far back as I can remember I always had a warm place in my heart for Appleton and I have been satisfied to make it my home.

I had a very amusing first job after I was old enough to go to work. I began delivering for Thompson and Bailey in the middle of the winter without an overcoat or overshoes and a very poor pair of mittens. Nevertheless, I held down the job for eight years.

We had excellent "streets" then. I can remember of many a time when we took a rail from the fence to pry out a wagon that was stuck in the mud on College-ave. Everything north of the avenue was dense woods and I used to hunt bear and deer in the forests which began right near the street.

G. W. Spaulding, barrel and stove factory, Atkinson chair factory, Briggs planing mill and Charles Mory flour mill were among the city's industries at that time.

When I became older I started in business and in five years I had enough to purchase the building which the gas company now occupies and in

MANY ATTEND OUTING T OOSHKOSH SUNDAY

One of the most popular outings Independence day was the excursion given by the young people of Mount Olive English Lutheran church to Menominee park, Oshkosh. The steamer Paul L. was loaded with its capacity of 270 passengers and about 50 were turned away who wanted to go but could not be accommodated. The day was spent at the park, where a public celebration arranged by the city of Oshkosh was in progress. The steamer returned early in the evening. Music was furnished on the boat and at the park by Lyric orchestra, Kaukauna.

We young folks had good times in those days. We had Merchie hall and Turner hall and a good many dances were held then. We danced the schottische, Virginia reel, two step and all the old fashioned dances. We waited then also but instead of waiting as they do now, we whirled around till we were so dizzy we could hardly stand. Sleigh riding was a popular amusement also. We would get a few sleighs with lots of robes and let'er go. Medina was a popular resort for the young people in those days.

BIRTHS
A son was born Monday morning to Mr. and Mrs. James Balliet Post-bdg.

NOTICE

INFORMATION TO THE PUBLIC IN GENERAL

Whereas, we have been continuously probed with questions concerning the controversy between the carpenters and the association contractors, we wish to state that at the meeting held some time in April, the sentiment of that meeting was, that \$35 per hour was not too much, and furthermore, the carpenters had orders to be at work the first of May. Which they did, but when reporting for work they were told not to go to work but, await further developments, which never matured on account of outside influence. Our working rules published in Saturday's edition were always satisfactory for the past six years. WHY PROTEST AGAINST THEM AT THIS TIME?

PEACE BY RESOLUTION

We do not think the country will ever be proud of the manner in which the war with Germany was terminated. As time goes on it will probably view with less and less satisfaction the irregular and unprecedented action of congress in declaring the war ended by joint resolution. If a formal treaty of peace is not negotiated the morally stultifying effects will be all the greater, for it will then be clear that it amounted to the payment of a political debt incurred under the management of a small coterie of senators whose principal object was to discredit President Wilson and his war administration.

It is a strange fact that notwithstanding the constitution prescribes the method in which war shall be terminated and peace treaties concluded, the constitutional procedure is abandoned and no attempt made to follow it when the administration is in complete control of all branches of government and can negotiate and ratify any peace it may desire. We are to take it for granted that if President Harding and the senate as now constituted had been in power when the armistice was signed, they would never have participated in the Versailles conference and would have made no attempt to conclude a treaty with Germany either separately or jointly. They would simply have passed a peace resolution declaring the war at an end as they have now done and let it go at that. This is a fair conclusion because what they could have done in those circumstances they can do in today's circumstances. The situation is no different.

Of course it will be necessary for the government to dispose of questions growing out of the war and this can be done by treaties of amity and commerce. These will include such matters as claims of one nation against another, German ships and other property seized as an act of war, etc. But these agreements will not constitute a formal treaty of peace. We shall still be left in the position of having deserted the allies in the great responsibility of concluding terms of peace and of failing to establish by treaty record the aims and purposes for which the war was fought and the guarantees of civilization which the victory is supposed to have achieved. We shall still be in the position of having concluded peace in a careless and ill-considered manner, contrary to constitutional direction and intention and in every way reflecting upon us no credit. It is, after all, a heavy price to pay for politics, and that is what the whole procedure amounts to.

THE DEVELOPMENT OF FLYING

We may yet see the day when we will fly with artificial bird-wings, no motor required, says the government air service. Prizes for man-power flight have been offered in France and Germany. So far, the only man who has made a successful flight with one-plane artificial bird-wings is Gabriel Poulain, Frenchman, who kept off the ground for a distance of 36 feet last August. A year ago aviation experts believed that flying without a motor would be impossible unless some man of ordinary weight should appear, capable of exerting two or three horsepower. But recent improvements in airplane wings have been startling. The latest doubles the lifting power.

Aviation thus tends back to where it started. For the first wing-flyers—the Wright Brothers, Lilienthal, Langley, Chanute and Oder—used gliders. These were machines without motor or propeller. They usually were box kites, resembling a honeycomb. With one of these gliders, Oder in 1896 flew through the air for over 1,000 feet. Orville Wright once glided for 15 minutes. The demand was for speed, safety and ease in flying. That

brought the engine-airplane, with which the Wrights made their first flight at Kitty Hawk, N. C., Dec. 17, 1903.

The first hot-air balloon ascension was by the Montgolfiers in 1782. They got their idea from watching a wet shirt drying before a fireplace, elevated like a sail by the heat. The dirigible balloon with propellers and steering apparatus arrived in 1885. Look at the airplane flying over your head with the ease of a bird, and it seems unbelievable that less than 18 years have passed since America gave the world the airplane.

Today there are 88 commercial flying organizations in the United States carrying passengers. So far, these organizations have carried 115,000 people a total distance of more than 3,000,000 miles, with no accidents or injuries and at an average fare of 75 cents a mile. The thing that is holding back the airplane and preventing its coming into common use is its high transportation cost. That will be solved in time, and the experts say it is not impossible that the solution will come by a bird-wing contrivance that will carry us without engines or balloons, such as was used by the immortal Darius Green of school-recitation fame.

ANOTHER FORM OF PROHIBITION DUE

"It is too much to say that the influence of money in politics has been eliminated," says William Howard Taft. Whether or not it is too much to say, certainly it is too much to believe. Money is still the most potent factor in our social, industrial and political life. There is no immediate prospect that its influence will disappear in government and politics. On the contrary, the power of money in these fields has increased rather than diminished in recent years.

Twenty and thirty years ago money was used surreptitiously. Practically everything that was attempted with it was done under cover, either in violation or in evasion of law. We had the corrupt practices acts to put a stop to this use of money, but in time it resulted in the enactment of legislation which really legalized the use of money, particularly in elections. The effect of this has been to greatly increase expenditures in politics as was disclosed in the last presidential campaign. Just preceding the election we had the case of Mr. Newberry in Michigan where a United States senatorship was openly purchased by the expenditure of money running into the hundreds of thousands of dollars. Justice in that case was defeated by technical interpretation of the law and now we have the prospect of the senate itself glossing over this scandalous debauchery of an election.

Mr. Taft is quite right, only he should have amplified his statement by saying that the use of money is becoming more flagrant and more potent in both government and politics. It is unquestionably due to loose moral standards. The inevitable result will be a reaction which will either socialize the government or which will make crimes of acts and practices which are now regarded as quite respectable. It will be another case of prohibition, this time applied to money instead of drink.

COMMON SENSE

The settlement of the British miners' strike on the basis of a compromise in which all parties, including the government, yield something, is a great victory for British common sense. The strike, which continued for 90 days, was the most serious and costly in the history of Great Britain.

For a time it threatened the country with an industrial and political revolution. Its effect on every phase of industrial life was little short of disastrous, and had it continued much longer the great machine upon which the vitality of Great Britain depends would have collapsed. The seriousness of the strike can hardly be appreciated by the people in this country.

Coal means more to the people of Great Britain, rich and poor alike, than to the people of any other of the great nations. It is not only the keystone of their industrial arch, but is the medium through which they are able to import their necessary food supplies. In Great Britain coal is king. Its large and economical production means some degree of prosperity for all classes. Its continued scarcity would mean ruin for all classes.

The threatened ruin has been avoided because in the final test everybody concerned—employers, miners and the public, represented by the government—realized that they were all in the same boat.

Health Talks

BY WILLIAM BRADY, M. D.
Noted Physician and Author.

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual case cannot be considered. Address Dr. William Brady, in care of this paper.

HOW OLD IS JOHNNY

A mother makes this inquiry: "At what age would you recommend telling the boys the story of life? My son is just nine and I have already told him the story of how he came as a little baby to me, but it still runs in his mind that storks bring babies, and I want to tell him the truth instead of leaving him to pick up distorted information from older boys who would perhaps tell him in an undesirable way. Older women tell me it is nonsense to put such ideas in a boy's head, but he is going to learn sometime, and I want him to understand in a way that will always make him think of motherhood as sacred and the power of human reproduction as a gift from God."

The older women have the wrong notion. It is their fallacious reasoning that maintains the myth of the stork, a myth employed in a cruel way by thoughtless or duty-shirking parents. If it isn't the duty of parents to teach their own children the truth about human reproduction, then all this grand talk about the "sacredness" of such things is insincere. The stork is an alibi that no good parent can longer afford to use.

According to careful investigations made by responsible Public Health Service authorities, the average age at which boys pick up their first sexual information—usually limited information—outside of the home is nine years, whereas the average age at which they receive competent instruction on the subject from or by direction of their parents is fifteen years. Far from being nonsense to tell children the truth, to teach them God's way, it is an injustice to tell them the stork myth or any other about such a sacred matter.

Don't wait until the children are nine, or twelve, or eighteen to teach them. Begin the moment they ask questions or show curiosity. That is the only good and fair way. That is the way that has proved best.

QUESTIONS AND ANSWERS

Smoke
I work in an office, past which run a number of railroad tracks, and trains go by almost continuously all day, pouring off smoke, which often comes in the open windows and almost chokes us. Is there harm done the lungs by this smoke? (A. L.)

ANSWER—Yes. The irritation predisposes to various respiratory diseases, particularly tuberculosis. Besides the large amount of carbon in smoke, there is sometimes considerable carbon monoxide gas, enough to induce serious poisoning if much smoke enters a room. A score or more of clothing makers were gassed in a New York factory by carbon monoxide, which entered from a neighboring chimney. It is a curious thing that, although the people of a city believe in and spend much money for cleanliness and health, yet they endure the smoke horror from railroads and other industrial sources—permit these industries for profit to maintain the worst nuisance imaginable.

Now Nose Wanted

Is there any remedy for an ill-shaped nose, not exactly badly shaped, but a curved nose? (P. L. M.)

ANSWER—The only way to have the shape or size of the nose altered is by operation which calls for the skill of a competent surgeon.

Twenty-Five Years Ago

Tuesday, July 7, 1896

Otto Spengler of Hortonville was visiting Appleton friends.

M. M. Valentine was a Milwaukee visitor the day previous.

Miss Lottie Sykes of Milwaukee was the guest of Miss Lizzie Berringer.

Mrs. James Hinton and children left for Olean, N. Y., the day previous to visit relatives.

Miss Nellie Dubois of Ryan high school left for Madison to attend the summer school.

Michael Cleary of the Sherman house spent Independence day with his parents at Fond du Lac.

George Berg left for Oconomowoc, where he expected to spend a two weeks' vacation.

Henry Faville and Carl Stansbury returned from a fishing trip to the northern part of the state.

Ira M. Allen of Waupun, a '96 graduate of Lawrence university, was engaged as principal of the Kaukauna high school.

Joseph Thomas of Nekeos spent the previous Saturday and Sunday with Appleton friends.

Prof. J. C. Foye of Lawrence university died at Chicago the Friday previous.

The fruit store of H. Louis, 742 College-ave., was badly damaged by fire.

O. W. Dodge of Middleton, O., formerly of the Pattern Paper Co., was in Appleton to remove his family to Middleton.

N. J. Pauley sprained his ankle by stepping into a rut at a street crossing.

Joseph Sanborn, 73, died July 5 at the home of his son, C. H. Sanborn.

The contractors engaged in building the new G. I. left branch of the Northwestern Railway Co. were advertising for 100 men.

CHIVALROUS LION

While a workman was closing the sliding doors of two cages at the Zoological gardens, Tregent's park, London, England, says a newspaper, a young lion slipped into the sleeping den of an old tigress. They attacked each other in the semi-darkness, before the lion apparently discovered that his opponent was a female. He could have killed her with ease, as her claws were feeble and her teeth worn, yet presently both emerged in neighborly fashion from the sleeping den into the show cage in front. They were separated by the keeper, but the tigress, although apparently little hurt, had been bitten deeply in the chest, and died next day from internal hemorrhage. The keeper declared that if the two animals had been of the same sex they would have fought to the bitter death in the sleeping den.

STARTS DEATH PROBE

Prof. M. Bonn, prosecutor here, has finished investigating the case of Henri Landru, alleged "Bluebeard," and is now working on the case of Madame Bassarabo, alleged "Lady Bluebeard." Bonn will try to prove that Madame Bassarabo killed two of her husbands within two years.

WE DON'T BELIEVE IT

London.—British papers quote this advertisement of a Boston undertaker in a book "Just published in America": "For composing the features of a corpse, \$1; for giving the features a look of quiet resignation, \$2; for giving the features a look of peace and contentment, \$5."

Farmers' Program

By Frederic J. Haskin

Washington, D. C.—A definite program of legislation designed to help the farmers, with an organized agricultural bloc or party in each House of Congress backing it, and a million organized farmers clamoring for its passage, is one of the most unusual features of the present Congress.

The tendency of the two old parties to break up into small groups in Congress, each representing some definite economic interest, has been described in a previous Haskin Letter. The old parties are tending to lose their meaning. You may know that a man was elected to the Democratic ticket without having a clear idea where he stands on anything. But if a man comes out as a representative of the farmers, of union labor, or of the manufacturers, you know at once where he stands.

So far, the farmers seem to have made most progress in this open, organized method. They have made known clearly their views on taxation, the tariff, immigration, and other major measures, and have in addition procured the introduction of a long list of bills designed especially to favor farmers. The following partial summary of the measures the farmers are supporting in Congress was obtained from the office of the American Farm Bureau Federation, which claims to represent over a million farmers.

A resolution has been passed appointing a committee to investigate agriculture and to inquire into the cause of its present status. According to Congressman Sydney A. Hays of Minnesota, the chairman of the committee, the whole scope of the inquiry can be compressed into the question: "What is the matter with the economic system of the country, if anything, with special reference to the service which it does and ought to afford to agriculture?"

About 25 Senators and an equal number of Representatives have joined together in separate blocs to discuss agricultural legislation and to try to promote the advancement of various bills which have been drafted to relieve the economic pressure on agriculture. These Members of Congress have the viewpoint that agriculture is fundamental and that it must be made prosperous if the wheels of industry are to turn freely. These blocs meet separately and usually in executive session, when plans are laid for action.

Road Bills

The American Farm Bureau Federation is working very closely with both blocs and it is confident a number of other bills will become laws before the closing of the session. The Federation has been making a strenuous fight against the Townsend highway bill and for the Dowell bill. It contends that the Townsend bill will provide for the construction of a few highways or trunk lines across the country and eliminate cooperation between states and the Federal Government in road construction resulting in heavy overhead expense with the appointment of three commissioners. The Dowell bill, which is now called the Phippa-Dowell bill, more closely approaches what the farmers desire—farm-to-market roads. It would continue cooperation between the Federal Government and the states. The law would be administered by the Department of Agriculture as at present, and would establish a definite road-construction policy. As the two bills now stand they likely will be referred eventually to the Townsend Senate Committee on Highways where some compromise between the two bills probably will have to be made in order to pass one of them.

After more than two years of intermittent testimony and discussion of packer legislation, two bills to control the packing business and livestock yards have reached a point where one is likely to become a law. This bill provides for the regulation of the meat packers by the Secretary of Agriculture, for a uniform system of accounting and publicity concerning costs, and applies the Sherman Act to the packing industry and commission men.

Two bills which would improve the Federal Farm Loan System have shown fair progress and it is predicted by those who are watching legislation closely that they will be passed this session. One bill provides \$50,000,000 working capital in the Treasury Department, which the Federal Farm Loan Board may draw against pending the sale of a large block of bonds. The claim was made that it was impracticable to keep Federal Farm Loan bonds on the market continuously and that a larger issue should be sold promptly.

Another bill would enable the Federal Farm Land Banks and the Joint Stock Land Banks to pay 5½ per cent instead of 6 per cent on their bonds, which are now tax exempt. Even with this assumption feature these bonds have sold rather slowly because of the high rate of interest paid by foreign governments and by our own industrial concerns.

The Farm Bureau with other organizations was successful in convincing the Senate Committee on Banking and Currency that two bills introduced by Senator Reed Smoot of Utah, which would have killed the Federal Farm Loan System including the Joint Stock Land Banks, should not be reported out of the Committee.

An Export Corporation. The farmers are also following very closely a bill introduced by Senator George W. Norris of Nebraska which would provide for \$100,000,000 for a Government corporation which would export agricultural products. The proponents of this bill had to meet the argument that this is class legislation. One of their replies is that whatever helps agriculture will hasten the return of prosperity to the country. When corn on the farm in Iowa is worth only 20 cents per bushel and sells at the station for 33 cents, but brings 83 cents in New York City, there is someone besides the farmer interested in the industry of agriculture, they say.

Two bills have been introduced to assist in financing agriculture and livestock production. One is the Sterling bill which would make available \$100,000 during the next 2 years to be loaned by the Federal Farm Loan Banks. These bills, however, will stand little show of passing if the banking interests carry through the program which they announced some time ago of lending \$50,000,000 to livestock producers in the West.

A bill which has been the center of attraction for some time is the Tinchin bill prohibiting the short selling of grain. It has passed the House and will be reported from the Senate Committee in the near future. All of the farm organizations have recommended it before the Committee and it also has the approval of the Secretary of Agriculture. It is being bitterly fought by grain dealers.

For several sessions in Congress the farmers have been very much interested in passing a bill which would make it necessary for manufacturers of woollens to mark their products so that the consumers would know the percentage of virgin wool which they carried.

It is claimed by the American Farm Bureau Federation that two-thirds of the world's woollens are manufactured of shoddy, for only enough virgin wool is consumed annually to produce one-third of the output. It does not object to the use of shoddy but it claims that the consumer should be given the benefit of knowing what he is buying. The Federation also wishes to unmask the alias "all wool." "All wool" of course may be, and generally is, shoddy. The bill the farmers are backing is the French Textile-Fabric bill. Hearings on this bill have been postponed temporarily by the House Committee on Agriculture.

Legislation on cold storage is again on the docket. Bills have been introduced by Representatives Haugen and Hutchinson and by Senator Frelinghuysen. The farmers are interested in this legislation and in testifying before the Committee on Agriculture the statement was made that the Federation wishes the bill so framed that permission will be given to store food-stuffs temporarily and in transit without requiring it to be stamped "cold storage." It would also like to see the limit of storage placed at approximately one year from the time of production.

Other bills before Congress in which the farmers are particularly interested are the Capper-Volstead cooperative marketing bill, and a bill which would increase the amount of individual loans made by the Federal Farm Land Banks from \$10,000 to \$25,000.

The Federation will be intensively interested in the very near future in a bill which will be introduced to provide for the completion of the Wilson Dam at Muscle Shoals, Alabama, and for a governmentally owned corporation which may operate the nitrate plant for the manufacture of fertilizer during peace and munitions during war time. The Federation approved this project after sending members of their Executive Committee to visit Muscle Shoals last April.

This session of Congress promises to write more constructive agricultural legislation than any other in recent years.

THE QUESTION BOX

(Any reader can get the answer to any question by writing The Appleton Post-Crescent Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau cannot give advice on legal, medicinal, and financial matters. It does not attempt to settle domestic troubles, nor to undertake extensive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. What United States postage stamp has a picture of an airplane on it? D. D.

A. A six-cent stamp has been printed which bears a reproduction of an airplane.

Q. What kind of wood is used for canoes? R. P.

A. Canoes are made of basswood, cedar, and other woods of the same type.

Q. Who introduced the sugar industry into the Philippines? F. J. W.

A. Sugar cane has been grown in the Philippine Islands since time immemorial, but it is considered probable that the sugar industry was introduced by the Chinese, since many of the early implements used came from China.

Q. Where did The New Orleans "Time-Picayune" get the name?

A. This name resulted from the consolidation of two papers, The Times-Democrat, and The Daily Picayune. When The Picayune was established in 1827 there was in circulation in New Orleans a small silver coin of the value of 6½ cents. It was commonly called a picayune, the word meaning "small." In those days, all the newspapers in New Orleans sold for 10 cents a copy. The Picayune in its first editorial announced that its selling price would be 6½ cents, as its name implied.

Q. How many crops of alfalfa are raised in a year in the Salt River Valley? T. S.

A. Alfalfa is cut from six to eight times a year in this Arizona valley.

Q. Will you kindly publish the pronunciation of Sign Fein? E. D.

A. The name Sign Fein is pronounced Shin Fane.

Q. Why aren't clouds frozen when

Out they go Bag and Baggage!

We brought this luggage into town for you to take out.

We are placing prices on it that should attract even those men who can get along in a pinch with their present equipment.

Suit Cases \$4. to \$20.

Bags \$5. to \$40.

Trunks \$40. to \$85.

And not only do we sell the containers—but also the comforts to go in them.

Matt Schmidt & Son

Appleton, Wis.

In an atmosphere below 32 degrees? H. E. K.

A. The Weather Bureau says that clouds in an atmosphere whose temperature is below 32 degrees generally do consist of particles of snow.

Q. What are the five highest cities in the United States? S. C. T.

A. Leadville, Col.; Cripple Creek, Col.; Laramie, Wyo.; Santa Fe, N. M.; and Cheyenne, Wyo.; are the highest cities in the United States, ranking in the order given.

I will not be responsible for any debts contracted by my wife, Mrs. V. Kimball.—Signed Willard Kimball.

—Adv.

Holland Furnace Company

HOLLAND, MICHIGAN

"HOLLAND FURNACES MAKE WARM FRIENDS"

Why the Holland System is Different and Better

The Holland moist-warm air heating and circulating system is different from any furnace you have known. Its castings are heavier and are fitted closely without bolts. Its construction and correct installation proves a perfect balanced circulation of perfectly warm moist air through every part of the house. Because of its airtight castings, the one piece radiator and the properly fitted pipes and no bolts to burn off it is impossible to get gas, smoke or dust through the Holland. The Holland heating experts will carefully plan your heating system correctly, according to the location, size and exposure to every room. The Holland Furnace pays for itself in fuel, economy and insures healthful warm, moist air throughout every room in the house. See the Holland man before buying. We sell on easy time payments or cash.

Society Notes

Farwell Party
Neighbors and friends of Mr. and Mrs. J. F. Hahn, Town of Center, who are leaving shortly to make their home at New London, gave them a delightful farewell party Monday evening. Cards and dancing furnished entertainment.

Among the guests were Mr. and Mrs. Edward Pagen, Mr. and Mrs. Bart Spert and family, Mr. and Mrs. William Timm and family, Mr. and Mrs. Gust Schroeder and family, Mr. and Mrs. Nicholas Defferding, Mr. and Mrs. Alvin Miller, Mr. and Mrs. Chris Fetting and daughter, Viola, Mr. and Mrs. Henry Sieg and family, Mr. and Mrs. Leo Defferding, town of Center, Mr. and Mrs. Charles Rabe, Gardola Rabe, Mr. and Mrs. John Heiden, Marvin Heiden, Mrs. Arnold Schmidt, Mr. and Mrs. William Schultz, Mr. and Mrs. Hermann Timm, Black Creek, Mr. and Mrs. Frank Schultz, Mr. and Mrs. Arnold Fetting, Appleton.

Entertain for Guests
Mr. and Mrs. Oscar Miller, Fox-st., entertained at dinner and supper Sunday evening in honor of Fred Miller, New York; Mr. and Mrs. Evan Hall and daughter, Dona, Camos, Wash., and Mr. and Mrs. Harry Adrian, Niagara Falls, N. Y.

Games, music and auto trips furnished entertainment for the afternoon and evening. Among the guests were Mr. and Mrs. Joseph Coyle, Charles Miller, Menasha, Mrs. Kate Benjamin, Hortonville; George Warcheck, Miss Louise Pundie, Mr. and Mrs. George Wash, Mr. and Mrs. Melvin Miller, Richard Miller, Mr. and Mrs. Walter Miller and Mr. and Mrs. Henry Miller, Appleton.

Mr. and Mrs. Joseph Coyle of Menasha entertained the same group Monday.

Miss Kersten Weds
The marriage of Miss Esther Kersten, daughter of Mr. and Mrs. Fred Kersten of Wittenberg, to Alfred Maack of St. Louis took place June 30 at the home of the bride's parents, according to announcements received here.

Miss Kersten is well known here having graduated from Lawrence Conservatory of Music in 1920. She is a member of Sigma Alpha Iota, national honor musical sorority. She taught public school music the past year at Wittenberg. The young people will reside at that village where the groom is a druggist.

Golden Wedding.
Mr. and Mrs. Ellery Alvord of Glenbeulah celebrated their golden wedding anniversary July 4. They were former Black Creek residents, coming to Outagamie-co. in 1866. The children present were Mr. and Mrs. Bert Alvord, Evelyn Alvord, Appleton; Mrs. Frank White, Aberdeen, Wash.; Mrs. Charles Carter, Joyce and Jessie, Black Creek; Mr. and Mrs. Guy Alvord, Laura and Ruth Alvord, Monroe; Mrs. Fred Riehl, Grace and Lyle Riehl, of Shiocton, and Miss Lulu Alvord, Glenbeulah.

Party for Mother.
Mrs. W. A. Mathes, Harriman-st., entertained 25 guests at dinner and supper Monday in honor of the seventeenth birthday anniversary of her mother, Mrs. M. Pietkorn. Among the guests were Mr. and Mrs. Walter Meyer, Ironwood, Mich.; Mr. and Mrs. Charles Pietkorn and family, Apple Creek; Mr. and Mrs. Fred Zuehlke and family, Black Creek; Mrs. M. Modersohn, Seymour, and Miss Clara Hoppe, Oshkosh.

Holiday Observance.
Novelty races were a feature of the annual Independence day party Monday at Riverview Country club. Jean Pratt and George Pratt won honors in the potato race; Jean Pratt and Fredrick Rector in the peanut race, and Lyle Spencer and Claud Hockley in the three-legged race.

Games and contests were followed by dinner after which members were entertained at dancing.

Surprise Party.
Harry Heiden, who is visiting his cousin, Mrs. William Menning, 1047 Harrison-st., was surprised Friday afternoon by a group of friends. The guests were Evelyn Pasch, Lawrence Witzke, Robert Witzke, Erna Lietz, Esther Horn, Elmer Horn, Earl Zimmerman, Lawrence and Lucretia Zimmerman and Virginia Rammer.

Country Club Parties.
Among the people who were entertained at dinner parties Saturday evening at Riverview Country club were Mrs. George Gilbert, Edward Lachman and

Mr. and Mrs. Fisher of Neenah. A number of others entertained small parties.

Business Women's Meetings.
An important meeting of the Appleton Business Women's council will be held at 7:30 Wednesday evening in the directors' room at the Y. M. C. A. Plans will be made for the picnic for the Appleton Business Women's association, which will be held July 12.

Mission Society Picnic.
The Missionary Society of Trinity English Lutheran church will hold its regular meeting at 2:30 Thursday afternoon in Jones park. A picnic supper will follow the business session.

Aid Society Meeting.
The Ladies Aid society of the First Reformed church will meet at 2 o'clock Thursday afternoon with Mrs. Carl Wickesberg, 685 Kernan-ave.

Change Meeting Day.
The Ladies Aid society of Mount Olive English Lutheran church will meet at 2:30 Thursday afternoon at the Y. M. C. A., instead of Wednesday afternoon.

Rebekah Meeting.
The regular meeting of Deborah Rebekah lodge will be held at 7:45 Wednesday evening in Odd Fellow hall. Plans will be made for a beach party to be given soon at the "Maples."

Marriage Licenses.
Applications for marriage licenses have been made to the county clerk by Ray H. Curry of Kaukauna and Vera A. Davis of Appleton; Otto Wickert and Melba Rietz of Appleton.

F. R. A. Meeting.
The Fraternal Reserve association will hold a regular meeting at 8 o'clock Thursday evening in South Mason hall. Important business will be transacted.

Outing at Lake.
The Woodcraft band of Appleton Women's club went out to the women's club cottage Tuesday for a week's outing.

Party for Friends.
Miss Mabel Wolters, Spencer-st., will entertain a group of friends Friday afternoon at her home.

PERSONALS

Mr. and Mrs. George Woelz, Mr. and Mrs. L. F. Woelz and Herbert Woelz have returned from Channing, Mich., where they spent the weekend. The trip was made by auto.

Mr. and Mrs. Joseph Bernkian and son of Milwaukee, are visiting friends and relatives in this city.

Arthur Jensen, employed officer of the Appleton Y. M. C. A., left Tuesday morning for Lake Geneva where he will attend the summer school of employed officers.

Kenneth Schweger, son of Mr. and Mrs. H. G. Schweger, 574 Pacific-st., who has been ill with an abscess in his ear, is recovering.

Mr. and Mrs. A. A. Schmidt and sons Robert and Junior and Mr. and Mrs. Louis Wagner and daughter Eunice, were Green Bay visitors Sunday.

Fred Fink attended the Independence day celebration at Nichols Monday.

Miss Clara Lyrick is visiting friends at Seymour.

Mr. and Mrs. Earl Watson have returned from their wedding trip to the Dells.

Wilmer Rehbein is spending a two weeks' vacation with his parents at the lake.

Joseph Humphrey has returned from Chicago and intends to make his permanent residence in Appleton.

Clark Goodland was an Oshkosh visitor Monday.

Albert Rehbein and family are occupying the Fred Younger cottage at the lake for a week.

Gregory Schindler left for White Lake Tuesday morning, where he has the contract for building a new school-house.

Mr. and Mrs. Arthur Schug of Wausau spent the holidays at the Robert Haley home on Locust-st.

Mrs. George Connors of 910 State-st. has returned from a two weeks' visit at Watertown and Milwaukee.

Frank Verrier autored to Green Bay early Tuesday morning accompanied by his daughters, Dorothy

and Marie who took the train there for Sturgeon Bay where they will spend a few days in the cherry orchards. The girls have been living in a cottage at the lake for some time.

Conrad O'Neill and family of Brookview visited relatives in Appleton over Sunday and Monday.

Mrs. Joseph Poetzl accompanied her son William on his return to Oak Park, Ill. Monday morning after visiting relatives in Appleton.

Miss Hannah Morrissey of Fond du Lac is visiting Miss Kate Hodgins of 1132 Fifth-st.

Leo and Hugo Baces, Carl Poetzl and Albert Koestler autored to Manitowoc Monday.

Leo Baces of Milwaukee visited his brother Hugo of 1064 Atkin-st. Sunday and Monday.

Mr. and Mrs. O. W. Rolfe of Milwaukee spent the holiday with his parents, Mr. and Mrs. F. R. Rolfe of State-st. The visitors came by auto and will return home Thursday.

Miss Marie Smith returned to Milwaukee Monday after a brief visit at the home of her parents, Mr. and Mrs. C. F. Smith of 1014 Prospect-st. autoed to Keshena Monday.

Mr. and Mrs. J. L. Johns and son spent the weekend at the Johns farm near Algoma.

Isadore Fox returned to Chicago Tuesday morning, after visiting for several days with Mr. and Mrs. A. L. Kiers.

Harold Siewert and Miss Tillie Stark autored to Milwaukee and Waukegan to spend the holidays.

Mr. and Mrs. Jacob Werner of Antigo, were weekend guests of Mr. and Mrs. J. I. Cohen.

Mr. and Mrs. P. J. Reiter of Milwaukee, and Mr. and Mrs. C. E. Beckler of Waldo, spent Independence day at the home of Mr. and Mrs. J. B. Lettier, 773 State-st.

George Grimmer and family spent the holidays with relatives and friends in Two Rivers, Manitowoc and Sheboygan Falls.

Arrive At Mooseheart
Mrs. Dennis Kelly and four children whom R. G. Zuehlke accompanied to Mooseheart, Ill., Friday, were temporarily placed in the detention cottage, but will be detained there only a few days. The party missed its connection at Milwaukee, but Mr. Zuehlke telegraphed ahead and had the Chicago train held until its arrival. Both Mrs. Kelly and her children were very much pleased with their new surroundings. The Appleton children increased the number that are being educated at Mooseheart to 1,041.

Dry Goods Men Meet
J. H. Neller of the Pettibone-Peabody Co. and C. E. Mullen of Green Bay Dry Goods Co. will leave Tuesday evening for Eau Claire to attend the convention of the Wisconsin Retail Dry Goods Co. will leave Tuesday evening Wednesday. Representatives from all over the state will be present.

Drunk Pays Fine
Entering the police station Sunday night in a state of intoxication, George DeChow, transient, was arrested on a charge of drunkenness and carrying concealed weapons. Arraigned before Judge A. M. Spencer in municipal court Tuesday morning he was fined \$19 and costs amounting to \$13.20.

Province Meeting
The Rev. Josephat Muesig, guardian of St. Joseph congregation, has left for Detroit where he will attend the triennial meeting of the Detroit province. Changes in pastorate are made at this meeting. The Rev. Fr. Leo will be in charge of the congregation during the absence of Father Josephat.

peevish in spite of what she said, when she finds that we have fixed the callopes. She belongs to the class of folks who love to be coaxed. The circus starts on its travels tomorrow, and I am sure that thousands of children will be made happy through your efforts."

"If they only let the schools out!" said Nick.

"If they only do!" sighed Nancy.

"If only," added Flippety-Flap, shaking his head and looking down at his Magic Shoes as though wondering if it would be possible to chuck all offending school houses inside them.

"And the weather!" added the Magical Mushroom, quinting up at the sky. "A circus without good weather is about as much use as a boat without water." To which remark everybody agreed.

The Fairy Queen interrupted, however. "What reward shall I give you little people?" she asked.

(To Be Continued.)

There was a great bowing and scraping for awhile, for it is quite necessary to treat a queen, and especially a fairy one, with great respect.

"There. That's over!" said the queen at last in a relieved tone. "Now we can talk like real people. And the first thing I wish to say, is 'thank you.' You've got a real circus together at last, and the best of it is, everyone is perfectly happy. I do believe that even cross old Grumpy Hippo is really going to be

pleased in spite of what she said, when she finds that we have fixed the callopes. She belongs to the class of folks who love to be coaxed. The circus starts on its travels tomorrow, and I am sure that thousands of children will be made happy through your efforts."

Confessions of a Bride

(Copyright 1920)

In Life's Shallows

"You're not going to accept that philanderer—that reprobate?" I gasped.

"No! Nor am I going to refuse him, dear. I am merely going to remind him that I am married and therefore disqualified to consider his proposition. Respect for monogamy—that is the particular lesson a man of his type should get from every married woman he makes love to!"

As Martha penned her reply, I felt for the thousandth time how wonderful life might be if human beings were only half as wonderful as they pretend to be! Life and its opportunities are more marvelous than the dreams of poets. But human beings fail.

Leo and Hugo Baces, Carl Poetzl and Albert Koestler autored to Manitowoc Monday.

Leo Baces of Milwaukee visited his brother Hugo of 1064 Atkin-st. Sunday and Monday.

Mr. and Mrs. O. W. Rolfe of Milwaukee spent the holiday with his parents, Mr. and Mrs. F. R. Rolfe of State-st. The visitors came by auto and will return home Thursday.

Miss Marie Smith returned to Milwaukee Monday after a brief visit at the home of her parents, Mr. and Mrs. C. F. Smith of 1014 Prospect-st. autoed to Keshena Monday.

Mr. and Mrs. J. L. Johns and son spent the weekend at the Johns farm near Algoma.

Isadore Fox returned to Chicago Tuesday morning, after visiting for several days with Mr. and Mrs. A. L. Kiers.

Harold Siewert and Miss Tillie Stark autored to Milwaukee and Waukegan to spend the holidays.

Mr. and Mrs. Jacob Werner of Antigo, were weekend guests of Mr. and Mrs. J. I. Cohen.

Mr. and Mrs. P. J. Reiter of Milwaukee, and Mr. and Mrs. C. E. Beckler of Waldo, spent Independence day at the home of Mr. and Mrs. J. B. Lettier, 773 State-st.

METHODIST CAMP MEET THIS WEEK

Several Appleton People Will Attend Conference at Byron Camp Ground.

The Wisconsin conference camp meeting and Epworth League institute is to be held July 7 to 17 at Byron Camp grounds. A large delegation is expected to attend from the local First Methodist church and from the Epworth league. An unusually strong program has been prepared. The Rev. Walter A. Hall of Fond du Lac is president; Martin De Young of Milwaukee, secretary; the Rev. Harland C. Logan, dean of the Institute and the Rev. Allen Adams, chorister.

The Rev. T. D. Williams of this city, superintendent of the Appleton district, is chairman of the program committee. He will also preside at the conference on church efficiency. Among the other leaders will be the Rev. Solon C. Bronson of Evanston, who is supplying the local pulpit during the summer months; Bishop Charles Wesley Burns, Dr. Howard Musser of India; Dr. W. R. Wedderburn of Chicago; Bishop Charles L. Mead, Dr. E. D. Kolstedt, Chicago; Dr. Stansell, Milwaukee and the Rev. C. W. Heywood, Neenah.

Goodwin Watson of Whitewater, assistant manager, and Mrs. H. C. Logan, dean of women.

TRAVELERS WILL HOLD OUTING AT MENASHA

Elaborate plans are being made for the annual picnic of the local chapter of the United Commercial Travelers which will be held July 23 in Menasha park. Prizes will be awarded in the contests and games for the children, young people and the older people. Cigars, peanuts, ice cream, lemonade and candy will be furnished.

Music for the day will be furnished by one of the best orchestras of the valley. All commercial travelers and their families have been invited.

Mr. and Mrs. E. A. Walthers and daughter Rosemary, and the Misses Camille and Marge Fose were the guests of Mr. and Mrs. A. L. Dewey at their cottage near Point Comfort, Green Bay, over the week end.

Belgium Rapidly Recovers from War

Almost Incredible Progress Has Been Made in Rehabilitation Since War.

By Austin West

Brussels—Belgium is proving as triumphant in the arts of peace as she was in the arts of war.

From all quarters reports are being received testifying to the almost incredible progress made since the armistice in the reconstruction of devastated areas, restarting of industries and the revival of trade that war stagnated.

Before 1914 there were 140,099 inhabitants in the districts now partially destroyed and 123,225 in the totally destroyed area. In 1919, 127,404 persons had returned to the first, and 57,612 persons to the second district.

In 1920 there were 125,739 persons in the first and 96,568 in the second. Now over the whole area there are only 30,000 fewer inhabitants than before the war.

In 1914 there were 66,450 agricultural dwellings. At the time of the armistice 15,602 had been partly destroyed, 36,955 completely destroyed and only 10,833 left intact. In 1920,

27,178 dwellings were registered as definitely reconstructed, 18,903 in the course of reconstruction, and 12,628 huts or temporary dwellings had been erected.

Agricultural figures show that in 1914 there were 126,715 hectares of land under cultivation; in 1919, 46,300 hectares were put back into cultivation, and in 1920, 51,476 hectares. The work of restoration has therefore now only 25,896 hectares to restore, and 77,774 are in a condition to be cultivated.

As the reconstruction services are able to put into order about 6,000 per month, it will only be a few months before the whole of the agricultural restoration will be complete.

MOOSE DELEGATE BACK FROM MEETING

A class of candidates will be initiated Tuesday evening at the regular meeting of the Mooseheart legion in Pythian-Moose hall. Robert Abendroth, past dictator who has returned from the national convention June 27 to 31 in Toledo, will read his report.

There were more delegates at this convention than at any previous Moose gathering. The delegation included 1,000 past dictators. A feature of the convention was the monster parade Thursday evening in which 14,000 members marched. Following the parade the legion initiated a class of 800 into the second degree.

Director-General James A. Davis, secretary of labor in President Harding's cabinet, attended the entire session. In his report he showed a gain of 50,000 members for the year and the institution of 165 new lodges. He started a fund for building a hotel at Mooseheart, Ill., the home for the dependent children of members of the order.

It was decided to hold the next three consecutive conventions at Mooseheart.

Mr. Abendroth stopped at Mooseheart on his return and attended the graduation exercises of the class of 12 who finished the course at the high school there.

MISS GREEN BECOMES BRIDE OF RAY M'INTIRE

Special to Post-Crescent
Seymour—On Thursday June 28, occurred the marriage of Miss Sylvia Green and Ray McIntire at the home of the bride's parents, Mr. and Mrs. Charles Green. The Rev. Mr. Lester performed the marriage ceremony. Miss Leone McIntire was bridesmaid and Martin McCormick was best man. The young couple will reside at Seymour.

Mrs. George Price and children of Milwaukee are visiting her mother, Mrs. George Warner, and other Seymour relatives.

Mrs. Fred Dorow has returned from Wausau, where she has been visiting her daughter, Mrs. August Koepf.

Mrs. Hattie Ulrich of Appleton, is a guest of Mr. and Mrs. P. J. Graham.

Harold Griffith of Racine is spending a week's vacation with his mother, Mrs. A. Griffith.

The Seymour band concert held last Thursday evening was attended by a very large crowd and a splendid program was rendered. Dr. Boyden also sang a vocal selection. The Seymourites and people in vicinity greatly enjoyed these band concerts judging from the crowds that attend them.

Miss Laurette Tock of Appleton is visiting Mr. and Mrs. William Preuss for a few days.

Mr. and Mrs. Herbert Kreuger of Shawano, spent the holidays with Mrs. Kreuger's parents, Mr. and Mrs. William Zeh.

Miss Dora Godding was home from Kaukauna for the weekend.

Mr. and Mrs. M. Stevenson left on Friday for Antigo where they are visiting their daughter, Mrs. Sherwood, for a few days.

Mrs. Florence Erasmush and Mrs. Edwin Gitter and children are spending a few days visit with their father, James Rusch.

William Eggers of Racine arrived on Saturday for a short visit with his wife.

Irvin Habermann, son of the Rev. Mr. Habermann, Forest Junction, formerly of Seymour, and Miss Emma Kosina, were married at Menominee, Mich., Thursday, June 28. The couple will live at Seymour. The Rev. Mr. Ohlrogge will leave Tuesday for St. Paul to attend a meeting of Lutheran ministers.

Card of Thanks.

We wish to thank our friends, neighbors, and relatives for their kindness shown us during the recent death of our husband and father; also for the floral offerings.

Signed—Mrs. C. I. Rothe and children.

HANCOCK STREET MAN PROFITS BY FRIEND'S ADVICE

"From almost the first day I began taking Kozak I began to pick right up, gain weight and feel better in general," said L. A. Stammer, 450 Hancock-st., Appleton, Thursday of last week.

"Recently while complaining to a friend about how I was suffering from rheumatism, lack of ambition and a run down condition, he said, 'Stammer, why don't you try Kozak?' Well, sir the next time I was downtown I got a bottle and began taking it. Soon I noticed the rheumatic pains disappear and that I was feeling more like myself already. Next, I began to acquire a keen appetite and noticed that tired, listless feeling was leaving me and I felt strong and my ambition returned. Work no longer seems burdensome and I feel fine—thanks to Kozak." Sold only by Schlitz Bros. Hortonville, Gitter; Kaukauna, Kaukauna Drug Co.; New London, Spearbrecher.

MARY AT PICNIC TO CELEBRATE FOURTH

Parade and Picnic Is Decided
Success—McCarthy Honored by Police Chiefs.

Kaukauna—The Independence day celebration held here Monday by the Loyd Order of Moose was a decided success although a great many people rushed to the lakes in their endeavor to keep cool. The day started with a parade made up of members of the order of Moose and the Ladies of the Mooseheart Legion. Behind them were numerous decorated automobiles and floats. The whole was headed by the Reformed church band.

The parade traversed the principal streets and broke up at the municipal play grounds where a picnic was held. In the afternoon there were several contests for the picnickers. An all day concert was given by the band.

McCarthy Honored
Chief R. H. McCarthy was elected president of the Wisconsin Police Chiefs' association at its annual convention held last week in Milwaukee. The chief returned to the city Friday evening after the close of the three day convention. In the absence of former president Mr. McCarthy responded to the address of welcome given by the mayor of Milwaukee.

Kaukauna Personals

Mrs. Patrick Moran was a visitor at DePere Friday.

Cyrillous Emmertson of Milwaukee, is visiting relatives in this city.

Mr. and Mrs. Arthur Engerson and son of Milwaukee, are visiting at the home of Mr. and Mrs. John Engerson.

Miss Emma Balk was a visitor in Neenah Saturday.

Miss Elizabeth Hentz returned Friday from a visit in Sheboygan.

Miss Mae Vander Weiss of Minneapolis, is visiting here with relatives.

Mrs. James Garvey of Antigo, was a caller in Kaukauna Saturday.

Andrew Schaefer, Jr. of Stockbridge, spent Friday with Mr. and Mrs. Andrew Schaefer.

Mrs. Frank Ver Wilt and son Eugene of Stanley, are visiting at the home of Mr. and Mrs. John Hitting.

Mr. and Mrs. Alfred Berkland, Misses Agnes and Dorothy Hitting returned Saturday evening from a visit in Stanley.

FINDS MILLIONS IN OLD MEXICAN CAVE

San Antonio, Tex.—One man in the world knows the location of the Cavallo Blanco cave, in old Mexico, and knowing it may result in his becoming the possessor of \$75,530,000 in gold and silver.

Adam Fischer, recently returned from Mexico, said he had relocated the Blanco cave, with its great treasure trove. He discovered it once before, but was unable to find it when he returned.

Fischer is now awaiting the decision of the Mexican government on his application for a concession to remove the hoard.

The story of the gold and silver bars and Spanish octagonal dollars dates back to 1810. At that time, during a revolution against the Spanish government, it is claimed that officers of the government and army took the gold and silver from the treasury and hid it in the Cavallo Blanco cave, in

APPOINTS COMMITTEE FOR MEMORIAL HOSPITAL

Special to Post-Crescent
Madison—Gov. John J. Blaine today appointed the members of the Wisconsin Memorial Hospital Commission which is to select the site for the proposed new Memorial Hospital for the care of shell shocked soldiers under joint state and federal appropriation. Those appointed today are:

Major E. J. Barrett, Sheboygan, commander of the American Legion.
Henry Town, member state board of control.

Major W. F. Lorenz, Madison, member service recognition board.
John G. D. Mack, Madison, state chief engineer.

Senators Eldo T. Ridgway, Elkhorn and Oscar R. Olson, Blanchardville; and Assemblyman Fred Hess, Waupaca and William M. Smith, Linden, the legislative members of the commission being members of the legislative visiting committee. The governor is ex-officio member of the commission.

The legislative visiting committee recommended that the new hospital be constructed at Waupaca in conjunction with the Wisconsin Veterans Home, while Governor's Island already owned by the state near Mendota, across the lake from Madison, is also under consideration, as to the Industrial Home for Women at Taycheedah, now nearing completion as a woman's prison.

Mrs. H. Barney of Mayville, is the guest of Dr. J. W. Burns, Pacificist.

ASPIRIN

Name "Bayer" on Genuine

say 

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Mono-aceticacidester of Salicylicacid.

adv.

Theodore Torrey of Hortonville, is visiting at the home of Mr. and Mrs. John Hertel, Rankin-st.

John A. Brill, who is recovering from a critical illness, was able to be out for the first time Monday and took

a short automobile ride. He had been confined to his room for about three weeks.

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarettey aftertaste,

It's Camels for you.

Camel

PAIGE

The Most Beautiful Car in America

Rock Bottom In Price

The motor of our five passenger "Glenbrook" model has a whole-some respect for the dollar bill. It extracts the last atom of energy from a gallon of gasoline and delivers only care-free, untroubled mileage.

Its first cost is amazingly low—only \$1635 since the reduction in June. And, with the "Glenbrook", first cost is last cost because it is blessed with a constitution that defies the repair shop.

It will pay you to adopt this stout-hearted light six. You can buy it with absolute confidence because it is at rock bottom in price and peak position in quality.

AUTOS PUT SKIDS UNDER LIVERYMEN

Nearly 200 Horses Were Owned by Liverymen Here 29 Years Ago.

In 1892, twenty-nine years ago, before interurban cars and automobiles, Appleton had nine thriving livery stables with 175 horses according to John Kunitz, a veteran liveryman. The two leading stables were owned by C. F. Smith, who had 30 horses and Mr. Kunitz who had 25. The remainder of the horses were about equally distributed among the other stables. At present the livery stables have no horses and the number have been reduced to less than half the former number. The two former leading stables have been converted into taxi lines and garages now occupy practically all the other stables.

"The livery stables in the early days," said Mr. Kunitz, "always enjoyed a good business. Before the interurban line was built they always had a good lake trade and traveling men who visited country stores were patrons the year round. For country dances we always had a call for several busses and there was always a demand for driving horses especially on Sundays, when every horse was in use."

The interurban line cut heavily into the livery business but it was not until the advent of automobiles that liverymen found it necessary to surrender.

NEW SAWMILL IS ABOUT COMPLETED

O. E. Knoke of Hatley placed his new saw mill at the old fair grounds at west end of College-ave, in operation July 1. The main building is completed and the greater part of the machinery has been installed. The structure is 30 by 100 feet in size, two stories high. The sawing mill will be done on the second floor, the logs being conveyed up an incline from a pond 35 by 100 feet located just north of the saw mill.

Work is to be commenced at once upon a new planing mill 40 by 60 feet which will be located close to the saw mill. Mr. Knoke expects to have this ready for use late in the summer. A warehouse, 35 by 60 feet is already in use. A boarding house large enough to accommodate the men employed on the new plant was opened up several weeks ago.

A new office building is to be erected near the entrance of the old fair grounds and on the same street but further north Mr. Knoke plans to erect several cottages for his workmen which will be ready for occupancy early this fall. He plans to move his family here from Hatley early in September and will make Appleton his permanent home.

TIRE MEN SEEKING NEW MARKETS FOR PRODUCTS

Special to Post-Crescent
Akron, O.—The real cause of the slump in the rubber industry was a miscalculation by certain manufacturers in figuring that an automobile wears out six tires a year. The number is less than four a year.

The specific error was in figuring the mileage of the average tire—that it would run only 5,000 miles, when actual practice has proved 9,000 miles.

This 50 per cent error means that 50 per cent more source of supply of raw material has been developed than can be used. The same with purchases of raw material, and development of manufacturing and distributing facilities. Also 50 per cent more tires were produced than could be used in a reasonable time.

Insiders say that the tire industry will come back. It expects to restore itself and enjoy greater prosperity than ever—by getting some of the money now going into steel rails, trolley wires and power houses.

STOP THAT ITCH! Purify Your Blood

Eczema, tetter and many other skin troubles are due to disordered blood. If you are afflicted with skin trouble, don't suffer the maddening torture longer, but start right away to purify your blood with S. S. S.—the standard blood purifier for over 50 years.

The Standard Blood Purifier

LAST SURVIVOR OF EARLY DAY MARKETS

Fred Peterson Observes Fortieth Anniversary of Entering Meat Business.

Fred Peterson, senior member of the firm of Peterson & Rehbein, has just celebrated his fortieth anniversary in business. He purchased his father's meat market in 1881 at the age of 21 years and has been in business continuously ever since.

Fred Peterson, Sr., established his meat market in 1866, fifty-five years ago. He conducted it alone until 1881, when the business was taken over by his son. When Fred Peterson, Jr., took charge of it the market was located in a small frame building which was replaced in 1883 by the present building. The former building was moved west on College-ave. and is at present occupied by Edward Maurer's tailor shop.

None of Mr. Peterson's early competitors now are in business. They were Morgan & Green, whose market was located where Bohne & Jensen store now stands; Chris Lempe, whose market site is now occupied by the "Voecks" building; Andrew Stark, who was one of the early predecessors of Fred Stoffel; Thompson & Bonini, whose market was located where the office of W. S. Peterson Co. now stands; Joseph Stier and Leonard Merkel, who were located on Appleton street near the Northwestern depot; and Harper on State-st., and Foster who ran a meat market in the Sixth ward.

ROAD OFFICIALS WILL ISSUE SERVICE MAPS

Weekly service maps showing condition of state trunk highways are to be issued by the Wisconsin Highway commission and will be distributed to tourists, hotel owners and others through the office of A. G. Brusewitz, county highway commissioner.

These reports will show detours, condition of road surface, bridges under construction, and other data needed by tourists so they may avoid unsatisfactory highways.

Mr. Brusewitz is requested to send reports each week to the state highway commissioner concerning roads in Outagamie-co. This information will be incorporated in the state weekly report.

WOULD MAKE ICE CREAM FROM FARM PRODUCTS

A movement is reported to be on foot among farmers living in the towns of Grand Chute and Center to organize a company and establish a plant to manufacture ice cream. Milk has dropped to a point where the wholesale price averages 90 cents a hundred pounds and it is the belief of interested persons that a handsome profit can be realized if they market their products in the form of ice cream.

Eggs required for ice cream also are selling at a low price, the farmers say, and such a plant would also help this situation. Sugar is comparatively cheap and it is believed that other necessary commodities are low enough to insure a profit.

The ice cream market is regarded favorably, because there appears to be a heavy demand and people seem willing to pay the present fancy prices.

Dozens Of Lives Have Been Saved By Appleton Pulmotor

Fire Department Device Effective 80 Per Cent of Times It is in Use.

Saving infants is not least among the accomplishments of the Appleton fire department.

The only pulmotor in the city is part of the department's equipment and this is frequently called out to resuscitate children who suffer from strangulation. In two such instances during the present week, the pulmotor was brought into use. Timely application of the device saves 80 per cent of the children whose lives are threatened.

Occasionally the pulmotor is called out to resuscitate victims of gas, drowning or electrocution. Most cases of asphyxiation occur during the winter as houses are kept closed at that time. Where people are overcome by coal gas or gas from open jets, the pulmotor is called more frequently in the morning than at any other time of day.

So far, the pulmotor has been called only a very few times for drowning cases. None of the victims in these cases were resuscitated either because the person had been too long under water or was injured in such a way that resuscitation was impossible.

How Pulmotor Works

A pulmotor consists of three principal parts, the mask, the pump and the oxygen tank. The oxygen tank contains oxygen highly compressed. By opening the valves of the tank, the oxygen is released gradually and

this operates the pump. The pump is double acting, first pumping air into the mask and then out again so that when the mask is attached to the mouth, the lungs are filled and emptied just as in natural breathing. The mask is simply a rubber cup of oval shape which will fit tightly over the mouth and nose. It is connected to the pump by a small hose.

Either pure oxygen or oxygen mixed with air can be pumped into the person's lungs. In severe cases of strangulation from any cause, pure oxygen is generally used. A tank of oxygen will operate the pump about two hours. It is then exhausted and a new tank must be attached. The empty tanks are sent to Sheboygan for refilling.

When the pulmotor is called out, the patient usually appears lifeless. The face is black and swollen. If the use of the pulmotor is successful, shortly after its application the face changes from black to purple. When this change occurs, the operator knows that the person may be saved. A little later the purple softens to red and when this happens, the patient usually comes suddenly to life, opens his eyes and moves. In the case of infants, the first thing that follows a return to consciousness is a prolonged "whoop."

Action is Harsh

Medical authorities agree that the pulmotor is often the means of saving life but they give it little credit for efficiency as only about 65 per cent of all cases result successfully. The chief objection to the pulmotor is its harshness. In most cases where the pulmotor must be used, the vic-

tim's lungs are tender or inflamed. The mechanical pumping of air into them is therefore likely to aggravate the condition. The purpose of the device is sometimes defeated on this account.

The pulmotor averages about 30 respirations per minutes. Its action is automatic for it adjusts itself to the frequency of respiration of the patient. This is probably the most wonderful feature of the device. In this sense it does not force air upon the patient faster than the patient is able to absorb it.

At present, tests are being made with the lungmotor and this is said to be more satisfactory than the pulmotor because it has several new features. The stroke of the lungmotor can be adjusted to the age of the patient and this is said to be an important improvement over the pulmotor. It is also said that the lungmotor is equipped not only to pump air in and out of the lungs but at the same time to draw off any fluid which may be lodged there. This, it is believed, will make it more effective for resuscitating drowned persons. It has even been used in severe cases of pneumonia and will remove the phlegm from the lungs. While it is not expected to cure a pneumonia case by this means, it will relieve the patient and this is often conducive to recovery.

Some states require all factories, power plants and other such places to be provided with pulmotors ready for instant use. They are also required on crowded bathing beaches where drownings are frequent. It is said that a "drowned" person may be resuscitated if the body has not been under water longer than ten minutes.

You Never Saved a Dollar on "Cheap" Motor Fuel

A lower price per gallon at the time of filling may have temporarily fooled you into the belief that you were making a saving. But it's safe to say that every cent of fancied gain might just as well have gone into a bottomless purse.

The constant missing, slow-firing and broken explosions of "cracked" fuel necessitate an over-rich mixture that has cost you as much in mileage as you gained by the gallon—to say nothing of the rougher running and the battering, deteriorating effect on your car.

Excessive carbon has pitted your valves and stolen power, besides causing direct expense for over-frequent cleaning.

And who can estimate the wear on cylinder walls and rings—on crank shaft and connecting-rod bearings—on gears and shafts—because of lubricating oil robbed of its richness by drippings of rank kerosene from cheap motor fuel?

Such saving can never pay in the long run—and it is as needless as it is misguided. Ready at your hand is genuine, keroseneless, quick-firing, carbon-free True Gasoline, eager in power and starting, conserving your motor and improving your motor running.

Save where the saving counts

Which Explosion would you buy for power, mileage and motor safety—

This full-rounded straight-line thrust of True Gasoline—

Or this sucky, gappy, kerosene-dripping, half-explosiveness of skimpy "cracked" substitutes?

Every little movement means more thirst.

PASSPORTS MAKE TRAVELERS SWEAR

Half of European Journey Is Devoted to Reporting to Police.

By Clyde A. Beals

Special to Post-Crescent
London — If there is anything that will bring out the latent foreign vocabularies of an American in Europe, it is the passport nuisance. There are now twenty-three countries, excluding Russia, to be encountered.

Belgium has recently taken the lead in doing away with the visum for allied nationals. Prior to this step she was charging Americans \$10, which many other countries are still doing in retaliation for the American visum charge.

It is almost as if each state required a passport for each, except that the foreign traveler would be getting more for his money. With the present exchange in Austria and Hungary it costs more for the passport fee for a two or three day sojourn than the rest of the expense of the trip.

From Vienna I wanted to go to Budapest over Easter. The Hungarian visa cost 750 kronen, and 500 more for the privilege of returning to Austria. The visa was nominally ten dollars, but as always happens, the exchange dropped, so that it actually was about twelve. Then the fare on the boat, an all-day trip on the Danube, was seven hundred kronen. And that visa is

good for only one trip. If one wants to go back a week or so later the same 750 kronen is exacted.

But that is only half the fun. Before one can register at a hotel in Hungary one must register with the police. Then the police must be visited again for permission to leave the country. In Austria the traveler is allowed three days in which to register, but must likewise obtain permission to leave. Even in Italy, where one would think that thousands of years experience in government would have taught them better, the same regulations exist.

And, the tourist himself is supposed to divine all these nuisances. In Rome the American consul has been thoughtful enough to have notices posted in the hotels where Americans are likely to stay. In other places an American blandly boards a train and then is pulled off at the frontier. Then is when the vocabulary comes out strongest.

In Italy, where in point of holidays the old song about "Every Day'll be Sunday Bye and Bye" almost comes true, the passport nuisance is, because of the laziness of the officials, particularly irritating. The traveler must register with the police in each city. If he is pressed for time, which an American always is, he does not enjoy delaying his sightseeing to make a first trip and deposit a slip bearing the usual expurgated parts of his life history, then have to come back in an hour or so, and then wait another half-hour to complete his registration. Then it takes a day to get the passports prepared for leaving.

I was in Ventimiglia, near the French border on the Riviera, arriving there on May 1st in spite of the muddled-up train service. I wanted to leave Monday morning, but because Sunday had been Labor Day, the police bureau had taken a vacation from Saturday noon to Monday noon. Then after my trouble, the Italian guard on the border where I waited across didn't even bother to look at me, let alone my passport.

If the vocabulary of the prospective American traveler is insufficient to meet the passport officials, he will find it comforting to know this in several languages:—"I didn't want to buy your damned country, I just wanted to rent it for a couple of days."

MRS. DAVIS IS NOT LURED BY SOCIETY

Cabinet Officer's Wife Would Rather Spend Her Time in the Kitchen.

By R. J. Gibbons

Special to Post-Crescent

Mooseheart, Ill. — Mrs. Jim Davis, wife of the Secretary of Labor, is entitled to a high place in Washington society. But she prefers the society of four-year-old Jimmy, Jr., and his baby sister, Jane.

In Washington political circles, she would rank among the first ladies of the land. But she'd rather rank as THE first lady among the 1100 orphans who are quartered in the home established here by Moose Lodge members, largely through the efforts of her husband, who organized the Moose.

I found Mrs. Davis busy hanging clothes in the park yard of her home. A clothespin was in her mouth. She wore a gingham dress. The baby played around her feet. Jimmy, with the tell-tale traces of bread and jam still on his cheeks, was begging for more.

But on her face was a smile that betokened real happiness.

She welcomed me heartily, and laughed when I expressed my surprise at finding her still at home, instead of enjoying prestige at the capital.

"But this is such fun," she exclaimed, as she flung a snow-white piece across the line. "See how nice

and white they are. That's surely a pleasure.

"I'd rather—far rather—be a good wife and an ideal mother, administering the duties of my home, than to lead the finest society cotillion in the land."

"It's the little things—things like Jimmy's mania for bread and strawberry jam—that make life really worth while."

Mrs. Davis met her husband twelve years ago. She was his stenographer in Pittsburgh, where Davis, a steel worker, was trying to organize the Loyal Order of Moose. Before that, she had been a teacher.

"I was tired of teaching and he agreed to give me a trial for two weeks as his stenographer and secretary," she says. And then she smiles. "You see I'm still on the job—for six years later I married him."

Fred Krounke was the guest of friends at Nichols Independence day.

EAT TO JAZZ TUNES AND BE DYSPEPTIC

Chicago Doctor Says Food May Do Shimmy But It Won't Digest.

By R. J. Gibbons

Special to Post-Crescent

Chicago. — Eat your way back to health.

They're doing it here under guidance of Dr. Pauline Selby Smith.

This physician, who up to a year ago went forth with pills and phials to cure her patients, now treats them in her "sane food parlors," where all ills are fed right out of 'em.

The idea has met with great success and her food dispensary is crowded to capacity.

Business men who have acquired obesity want food to get thin.

The lean variety want mixtures to put on weight.

All of them get satisfaction—and good food scientifically cooked.

The doctor supervises the kitchen herself, making the steaks "chemically perfect" and the potatoes and other trimmings "balanced delicacies."

Dr. Smith says, "If we eat right we'll live longer and more happily."

Her patrons and employees are requested to refrain from loud talking and unnecessary noise, such as smacking the lips over soup or rattling the dishes.

"When eating one should have a congenial atmosphere," says Dr. Smith. "Harsh words, exciting music, crashing china, all tend to make an

indigestible mass of whatever is taken into the stomach as food.

"That's why so many people are dyspeptically inclined just now. They eat where jazz is played and their food, while doing a shimmy down their gullets, firmly resolves that it won't do any more good for the person than it can help."

"Excitement while eating is worse than starving."

In addition to eating correctly, Dr. Smith advises a change in vocation about every 15 years.

She in turn was a professor of music, then a doctor, and now a "food corrector."

"Changing one's work periodically—not spasmodically—gives anyone a new lease on life, leads to longevity and gives added incentive for accomplishment," she says.

"That's why I stopped my medical practice, although I am deeply interested in it and always will be. But I needed a change, and knew positively that I could do just as much for people with food as I could with pills."

REALTY TRANSFERS

Landerman to Annie McCarty, lot in First ward, Kaukauna, consideration, \$275.

PHYSIOLOGICAL ACTION OF TANLAC EXPLAINED

World's Leading Authorities Show Just What Tanlac Really I sand Explain Effect of Each of Ten Ingredients on the Human System. Power of Medicine Conclusively Proven.

A day never passes but what thousands of people ask the questions: What is Tanlac? Why its phenomenal success? Why do we hear so much about it? and Why has this preparation so far outstripped all other medicines of its kind?

The answer to these questions is easy and can be explained in just one word—merit. Tanlac is scientifically compounded and represents years of work, study, experimentation and research by some of the foremost chemists and pharmacologists of America.

The Tanlac formula is purely ethical and complies with all National and State pure food laws. It is purely vegetable and is made from the most beneficial roots, herbs and barks known to Materia Medica. The Tanlac Laboratories are among the largest and most modernly equipped in this country.

Ten Ingredients in Tanlac
Altogether, there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says: "It has been the source of the most valuable tonic medicines that have ever been discovered."

In referring to other of the general tonic drugs contained in Tanlac, the 13th Edition of Potter's Therapeutics, a standard medical text-book, states that "they impart general tone and strength to the entire system, including all organs and tissues."

This same well-known authority in describing the physiological action of still another of the ingredients of Tanlac, which is of value in treating what is commonly known as a "run-down condition," uses the following expression: "It is highly esteemed in loss of appetite during convalescence from acute diseases."

There are certain other elements in Tanlac which, because of their influence upon the appetite, digestion, assimilation and elimination, improve the nutrition and vital activity of all the tissues and organs of the body and produce that state of general tonic which is called health.

The United States Dispensary makes the following comment regarding another ingredient: "It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required."

There are certain other ingredients described in the Dispensary, and in other standard medical text-books, as having a beneficial action upon the organs of secretion, whose proper functioning results in a purification of the blood streams passing through them. In this manner, objectionable and poisonous ingredients of the blood are removed and the entire system invigorated and vitalized.

Tonic and Body Builder
Tanic was designed primarily for the correction of disorders of the stomach, liver and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder, for it naturally follows that any medicine that brings about proper assimilation of the food and the thorough elimination of the waste products must, therefore, have a far-reaching and most beneficial effect upon the entire system.

TWO MORE MEN ARRESTED IN HUGE WHISKY "RING"

Kenosha, Wis. — William Murray former saloonkeeper here, was arrested by federal authorities Tuesday charged along with Louis Schreyer and Edward Kosterman, former Kenosha banker, with conspiracy to violate the dry laws. Other arrests in connection with the alleged "million dollar whisky ring" are to be made Wednesday, it was understood.

TRIES TO STOP FUNERAL OF WOMAN; HINTS MURDER

By United Press Leased Wire
Lockport, N. Y. — A telegram received by Sheriff Bigelow reading "stop funeral of wife of John Bartram, case of poisoning, information coming," probably will not cause delay of the funeral of Mrs. Bartram, 27, who was to have been buried here Tuesday.

The telegram was signed by Robert Fox and was sent from Midhurst, Ont.

The sheriff has received no additional word from Fox and has been trying to get into communication with him. Bartram told the sheriff that he and Fox had not been on friendly terms but could not account for the telegram.

Doctors who performed the operation said there was absolutely no trace of poisoning and that death resulted from appendicitis.

FUNERAL FOR FIRST YANKS KILLED IN WAR

By United Press Leased Wire
New York.—The first three American soldiers, killed on French soil in the world war will be among those for whom funeral services will be held at the army piers in Hoboken Sunday afternoon.

The soldiers were Corporal James D. Gresham, of Evansville, Ind., Private Thomas F. Enright of Pittsburgh, Pa., and Private Merle D. Hay of Glidden, Iowa. All were members of the Sixteenth infantry, First division. They were killed during a trench raid by a German patrol the night of November 3, 1917.

The services will be held over the bodies of 1,437 soldiers brought in by the steamer Somme Tuesday and 5,324 which arrived on the Wheaton a few days ago.

SLAYING DONE CHEAP

Shanghai.—A Russian here has organized a score of Chinese into an assassins' syndicate. Any member of the crowd will kill anyone for you for a nominal sum. They wear white badges, so you can pick 'em out easily.

REFUSES TO JUMP FROM THIRD FLOOR; DIES IN FIRE

By United Press Leased Wire
Riverhead, N. Y.—Miss Florence Whitting Tuesday lost her life in a hotel fire here because she refused to take a chance by jumping from a third floor window. Her body and that of Richard Heineman, another employe of the Canoe Place Inn, was found in the ruins after the flames had practically destroyed the structure.

Damage to the hotel was estimated at \$50,000.

Quit Laxatives, Purges; Try NR

NR Tonight—Tomorrow Feel Right

It is a mistake to continually dose yourself with so-called laxative pills, colonics, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you can always feel your best.

Try Nature's Remedy (NR Tablets) and move this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

LEGISLATURE ADJOURNS AFTER BIEF SESSION

By United Press Leased Wire
Madison.—The Wisconsin legislature still is marking time. After an hour session Tuesday the solons adjourned until next Tuesday. Only a few were present but a quorum of both houses

is expected next week when Gov. John J. Blaine probably will determine that some disposition be made of the state's taxation problem, muddled by the legislature last week by the defeat of the automobile tax bill. This measure would have added \$8,000,000 to the state's revenue, sufficient to meet all needs for the biennial. The appropriation and park bills

which the governor may use to compel action, have not yet reached his office for approval or disapproval.

BLIND MEN HAVE UNION
London.—A score of blind gardeners here have formed a guild. They say they have it on other gardeners because they can't tell night from day, and thus can work all the time.

More Than Money In Saving

It means firmness, persistence, prudence, courage.

The spendthrift may regard the saving man as selfish but the truth of it is just the reverse.

Saving means putting one's general welfare above temporary luxuries. This attitude naturally leads to more regard for the well-being of others and the nation.

You will find your dealings with The First National Bank always pleasant and satisfactory.

APPLETON WINS FROM KAUKAUNA AND MENASHA

Schultz Hurls Brandts To 2 Wins In 2 Days

Eighth Inning Rally Nets Four Runs in Sunday's Game at Kaukauna—Priebe Clouts a Home Run—VanGothem Hit Hard.

Kaukauna sang a doleful wren song in the eighth inning of Sunday afternoon's game at the down river city and Appleton sprinted home with four runs in the most spectacular frame of the season. In the final count Appleton was victorious by a score of 7 to 1.

Up until the eighth period VanGothem had maintained the reputation he is said to have acquired in the Wolverine state by holding the Brandts to four hits but either he was seized with indifferent relaxation or the intense heat was too much for him because the Brandts got to him in the eighth and reeled off five blows.

Shott led at bat in this frame and banged the ball into center field for a single. Durain spanked the ball over third base and Shott traveled to second. It was evident that Kaukauna was fussed and didn't know what to make of it. Murphy came up and attempted to sacrifice Shott to third but failed. Priebe whipped the ball to center and the bases were full. Woods hit to left and scored Shott, but Durain was stopped at third.

Schultz stepped up with Priebe on third and Woods on second. He swung hard a couple of times and then decided to take it easy and was walked to first. Spies came up and walked while Priebe sauntered to the plate, registering the second score of the frame.

Beyer clouted the bat while three of his team mates on the bases eyed him anxiously. Then Beyer did even better than they had expected of him. He slammed the ball into the right field for a double. Before the pellet had spent its force and idled to the wall, Woods and Schultz were sitting calmly on the bleachers and the fourth score of the inning was hung up.

Great possibilities confronted Mudloff when he came to bat. Spies was on third and Beyer on second. Desperation was recorded on the face of Kaukauna's men but Mudloff's fly was caught in right and the frame was over.

In the second period, Priebe came to the peak with Durain on second base. Durain had reached first by hitting a sky fly that Wittig thought could be easily picked off, but the July sun gave him a couple of eyes full and the ball plunged down past his fingertips. Murphy twice attempted to sacrifice but the ball rolled over the third base line both times. The third time, he whiffed but Durain made a successful steal to second.

Just then Priebe stepped up. He swung viciously and the ball was gone like a shot over the left wall for a home run and Priebe rolled around the diamond sending Durain in ahead of him.

Although Durain missed scoring in the eighth by a mere bit of luck, he had already done his bit by chalking up two scores. Besides the one just described which he took from the second period, he also nabbed one in the sixth. Shott had struck out when Durain's turn came. He bused the ball to the middle field for a two base clout. Murphy followed with a single to left, and Priebe catching the spirit of the occasion tapped out a bunt, scoring Durain but derailing Murphy at second on a fielder's choice.

In Kaukauna's half of the third, VanGothem led off with a double to center. Johnson singled and then Melchior sent a speedy grounder to Mudloff on third. Mudloff rushed out to pick up the ball but the sun must have dazzled him as he straightened up for he staggered back and Melchior beat the throw. Wittig rolled to Beyer who threw to first. While this was being done, VanGothem brought in the lonesome run which saved Kaukauna from a shutout.

GREEN BAY WINS ITS FIRST LEAGUE GAME

Red Sox 8, Sheboygan 3.
Green Bay 7, Juneau 2.
Manitowoc 7, Two Rivers 6.

Manitowoc	6	5	.545
Two Rivers	5	5	.500
Green Bay	1	10	.091

Green Bay—Green Bay won its first game of the season on Sunday by defeating Juneau 7 to 2. The Bays got to Schultz with men on the bases. Ruth pitched good ball for the home team and some fast fielding got him out of several holes. Sherrbarth's unassisted double play in the ninth was the fielding feature.

MERCHANTS LOSE TO NEW LONDON CITY TEAM, 5 TO 4

West End Merchants baseball team lost to the New London city team at New London Sunday afternoon, 5 to 4, in a hard fought game. The score was tied at one each until the third inning when New London scored twice. LAZAR's three base hit in the sixth, scoring two men, tied up the count. New London scored again in the seventh and Appleton knotted the count in the ninth. A last minute rally scored one run for New London and gave victory to the home team.

Gosha and Schneider figured in a flashy double play in the four inning when Gosha caught a tall fly and whipped it to the infield to double up a runner.

KIMBERLY WINNER IN BATTING MATCH

Home Runs, Triples and Doubles Keep Fielders Busy in Monday's Game.

Kaukauna—Kaukauna was defeated by a score of 13 to 9 Monday afternoon at Kaukauna ball park in a base ball game with Kimberly. The affair looked more like a batting practice test. Kimberly piling 19 hits and Kaukauna getting 17. The Hollanders hit one home run in three doubles and 17 singles. Kaukauna hit three triples, three doubles and 11 singles. Wild throws and errors sent several men ahead for extra bases in almost every inning. Ten Kimberly men went down before the offerings of Gottsacker and Schmidt while Poca fanned five Kaukaunites. Both teams scored once in the first inning. Kimberly scored again in the second and twice in the third and Kaukauna also scored twice in the third frame. The Hollanders scored three times in fourth, sixth and seventh. Kaukauna made a game try in the sixth frame. Johnson started off with a single, Melchior tripled, Van Goethem and Schmidt tripled and Wittig singled, and before the side was retired they had stacked up five runs.

Neither side scored after the seventh round.

The box score:

form Bureau at the office of their attorney, Herbert Clark Gilson.

Dr. John Roach Stratton, who attended the Dempsey-Carpentier fight as a writer, and many other "fight witnesses," may be summoned to testify if the reformers succeed in getting a warrant for the champion's arrest.

Mrs. J. H. Cota and son Jack of Ludington, Mich., have returned to their home after a two weeks visit at the T. F. Walsh home at 806 Durkeet st. They accompanied Mr. and Mrs. Walsh on their return from an auto trip through southern Michigan.

WANT TO ARREST DEMPSEY FOR ASSAULTING GEORGES

By United Press Leased Wire
Jersey City, N. J.—Proposed arrest of Jack Dempsey on a charge of assault on Georges Carpentier was to be discussed Tuesday at a meeting of the leaders of the International Re-

THE KNOCKOUT BLOW

The end of the fight. This shows Georges Carpentier, after he went down in a heap from the effect of Dempsey's vicious right to the jaw. Unable to rise, Carpentier held up one arm as if in protest against the referee counting him out. Dempsey, confident that the challenger will not rise again, nevertheless is keeping a wary eye on him.

NEW LONDON WINS WITH 4 HOME RUNS

Five Balls Are Sent Over the Fence in Sunday's Game at Menasha.

Menasha—New London defeated Menasha at Menasha Sunday afternoon by a score of 8 to 4. The game was more interesting than the score indicates. The feature of the game was two home runs by Klavitter of the New London club, and by Dobratz and Luedtke also of the New London nine. Jones of Menasha lifted one over the center field fence in the sixth inning. Wetzer struck out four of the New London club and Logan struck out five Menasha men.

SCRAPPERS TRYING TO FORGET FIGHT

By United Press Leased Wire
New York.—Jack Dempsey and Georges Carpentier are both having their first fun of six weeks.

The two boxers who met last Saturday in Tex Rickard's pine saucer for the world's championship, are trying to forget it.

The champion is applying himself to his big car and the Frenchman is enjoying himself around his Manhattan farm.

Dempsey said Tuesday morning he planned to remain in New York for the remainder of the week but he admitted that the call of the west was getting strong and that he wanted to go some place where he could take off a starched collar and have a good time.

Carpentier's plans depend partially on his young wife. Mme. Carpentier had intended to come to the United States if Georges won and take a sightseeing tour of the country. If she decides not to come, Georges may go back to France and return for some more work when Tex Rickard gets it for him.

Jack Kearns, manager of the champion, is getting the European bug in his bonnet again. He wants to arrange a tour of the old country if he can land a few bouts.

Kearns says that he has received no definite offers for a return bout with Jess Willard or Bill Brennan.

KONETCHY WILL REPORT TO PHILLY NATIONALS

By United Press Leased Wire
Philadelphia—Ed Konetchy, former first baseman for the Brooklyn Robins, was to report Tuesday to Manager Bill Donovan for duty with the Philadelphia National league club. The big infielder was bought by the Philadelphia management for the waiver price. Rapp, King and Richbourg, secured from the Giants, were also expected to get into the game Tuesday.

Sport Views And News

We take our hats off to Jack Dempsey. The champion polished off Carpentier without hardly getting a mark and in doing so showed that he is still the same old hard hitting Jack. The weariness of the heavy weight crown never looked much better. He showed a great reversal of form over his last bout with Brennan in a New York ring and what's more sized up just as good as he did against Willard at Toledo. Yes indeed, Jack Dempsey sure is a super man.

And just a word about the Frenchman. He died fighting and gave a display of gameness seldom seen in a fight ring. Carpentier was outclassed. There is no question about that but he gave the best he had and what more could you ask. The old world is strecken with grief because their idol met defeat but they can be proud of him because he gave all he had in attempt to take the title across the ocean.

And the fight of a century is past history. Tex Rickard deserves all sorts of credit for putting it over. No body except Rickard would have attempted it. It was a gigantic undertaking. The promoter had his share of trouble ever since the first papers were signed. Two of his co-partners showed a white feather and pulled out when the clouds gathered but Rickard went it alone and came through with flying colors. Based on the attendance figures and a rough estimate of the gate receipts, the promoter cleaned up about \$400,000 for his warms of a year.

For about two months, the fans of Green Bay have been pulling for a victory in the Lake Shore league and they got it yesterday. Its funny what a difference a win will make. As the crowd wended its way from the ball park after the game was over, it seemed as if it was just one continuous procession of smiles.

Watching The Scoreboard

Monday's hero—Guy Morton. The Cleveland pitcher ran to the relief twice and got credit for winning a double headed from the White Sox at 6 to 4 and 11 to 10.

George Kelly hit two homers in the first of a double header which the Giants took from the Robins by scores of 8 to 1 and 7 to 4.

Frank Baker hit a pair of four base clouts beating the Pathetics, 6 to 4.

The Yankees also won the second game, 14 to 4.

Veatch and Hellman hit homers in both games and the Tigers beat the Browns, 4 to 1, and 7 to 6.

In the first game their clouts came consecutively.

Southworth's two homers helped the Braves take a double header from the Phils, 6 to 4, and 3 to 2.

Alexander beat the Reds, 6 to 2, after the Cubs had lost the morning game, 4 to 2.

Five runs in the ninth inning off two passes, three doubles and two singles, gave Washington a 7 to 3 victory over the Red Sox after Boston had lost the first game, 4 to 1.

Lefty Cooper fell down before the Cardinals and the Pirates lost the second game 6 to 3, after winning the morning encounter, 5 to 2.

DANCE AT HARTZHEIM'S, LITTLE CHICAGO, THURSDAY NIGHT.—Adv.

APPLETON CLOSE BEHIND OVERALLS

New London Forced Out of Tie for Second Place—Menasha Takes Tumble.

SUNDAY GAMES.
Appleton 7, Kaukauna 1.
New London 8, Menasha 4.
Oshkosh 15, Kimberly 8.

MONDAY GAMES.
Appleton 3, Menasha 0.
Kimberly 13, Kaukauna 9.
Oshkosh 4, New London 3.

HOW THEY STAND.

	W	L	Pct.
Oshkosh	7	2	.778
Appleton	7	3	.700
New London	6	4	.600
Menasha	1	5	.167
Kimberly	4	6	.400
Kaukauna	1	9	.100

Appleton's double victory over Menasha and Kaukauna Sunday and Monday broke the tie for second place with New London and put the Brandts in undisputed possession of the second position. There was no relative gain in the race with Oshkosh however, inasmuch as that team won both its games and is entrenched in first place with the local team a half game behind.

There were no changes in the positions of the other teams although Menasha's double defeat sent her hurtling

OSHKOSH DEFEATS NEW LONDON IN TIGHT GAME

New London—Oshkosh defeated New London here in a hard fought game Monday afternoon, 4 to 3. Oshkosh scored two runs in the third inning on hits and errors and two more in the sixth and seventh on hits. Logan pitched in flashy form but Oshkosh hit when hits meant runs. The game was witnessed by a fair sized crowd, the intensive heat keeping away many fans.

down the percentage ladder. Kimberly gained slightly in standing as a result of one victory and now is close on Menasha's heels.

Most of the games on Sunday and Monday were featured by heavy hitting. Home runs were scored in a majority of the games.

APPLETON FORESTERS SWAMPED BY OSHKOSH

Oshkosh team of the Catholic Order of Foresters league defeated the Appleton team, 17 to 2, on the new diamond in Plover park Monday afternoon. Oshkosh hit Redner all over the lot. Appleton couldn't do much to the visiting pitcher. The diamond was rough and interfered with accurate fielding. It was the first game played on the new grounds.

Miss Dorothy Brigham Rankin has returned from a several weeks' visit with friends at Eau Claire, Wausau and Minneapolis.

FREBERG DEFEATS PAUL MARTINSON IN SLOW MAT BOUT

Swede Wins Two Out of Three Falls While Martinson Wins One.

John Freberg, 230-pound Swede, won two out of three falls from Paul Martinson, 233-pound Dane, in a combination wrestling match and prize fight in a grueling hot sun at Brandt park Monday afternoon. Freberg won the first fall with a short-arm scissors and the deciding fall with a punishing toe hold. Martinson took the second fall also with a toe hold which put Freberg on his back. About 500 persons saw the battle.

Freberg's victory puts him in line for a match with Zbyszko, world's champion, but Appleton fans are pretty much of the opinion he won't last long with the big Pole. He is too slow and clumsy to be a good match for the powerful and tricky champ.

The crowd booed both men when they gave vent to their tempers and swung at each other with their fists. Referee L. W. Rhodes dived between the brawling wrestlers on several occasions when they forgot all about rules and went after each other with uppercuts and right swings. Martinson landed a left poke in Freberg's midsection as the latter went down on his haunches and the blow was heard all over the grandstand.

Both men were caught in punishing holds but Freberg seemed to show the greater endurance. He broke out of two bad headlocks and a toe hold before he caught the big Dane in a short-arm scissors which put him down as 12 minutes and 40 seconds of grappling.

The second bout was something like the Dempsey-Carp fight over in Jersey City last Saturday. The grapplers dug into each other in good shape keeping Rhodes busy trying to separate them. He got squeezed in between the two big fellows like a sandwich and they finally returned to wrestling. Martinson clamped on a toe hold which turned the Swede over on his back in 3 minutes and 10 seconds. Another row was started when Rhodes gave the fall to Martinson because the latter did not release his hold soon enough to suit Freberg and they went at it with their fists. Peace finally was restored and after a 10 minute rest the grapplers went at it again. Martinson caught his foe in a toe hold which made Freberg wince but he kicked his way out after several minutes of pain. Headlocks and wristlocks were brought into play until finally Freberg caught Martinson's leg and hung on long enough to grab his toes. He maneuvered around until he secured sufficient leverage to hang on. Martinson squirmed and twisted but was forced to concede the fall when he found he could not break the hold. Both men were limping when they left the ring.

Seasoned Tire Making Experience Marks These KOKOMOS

TIRE building experience that dates back to the first pneumatic tire is indelibly stamped on KOKOMO cord and fabric casings.

In the tread design ALONE a type has been developed that makes them remarkable.

The weight of the car is carried on a smooth, tough, center rib, on which the car rolls easily, economically and as free from friction as a boy's hoop on the sidewalk.

But when road grip is needed, the heavy rows of angled wedges exert their pressure like giant fingers—and then yield easily and noiselessly.

Tires like these yield full return on tire investment.

CONDEMNED GIFT OF TRUCKS TO STATE
Senator Deplores State Grab for Supplies Left Over From World War.
By L. C. Marlin
Washington.—When the war was won so many American cities and villages wanted captured German

cannon and machine guns that it looked as though Uncle Sam would have to order a lot of them from the Krupps to give away. It now develops that this demand for souvenirs was paralleled by a demand for more practical things, which has "bankrupted" the War Department in one item, and has bitten deeply into its supplies in other ways.

Motor vehicles, trucks mostly, lead the list. The free distribution of these to the states is a "scandal," Senator Wadsworth, chairman of the senate military affairs committee declares.

"I may be utterly alone in my opinion," Wadsworth said, "but this dole of the free distribution of gov-

ernment property has gone far enough. I can well understand the appetite that is aroused in a State Highway commissioner when he understands that the war department owns a lot of trucks and that there is a law authorizing the secretary of war to turn those trucks over to the agricultural department, free of charge, to be given the states.

"The drive for these trucks has ramifications all over the country. All they have to do is 'press the button' and the people interested in the building of roads write and wire asking that the war department be directed to turn over trucks."

As a result, Wadsworth said, the war department is short in motor trucks required for its own peace time uses 1505 trucks and 487 passenger cars and has some 4,000 automobiles on hand that wouldn't run and can't be sold for anything but junk.

The motor truck "pork barrel" has yielded the states 26,423 trucks and spare parts valued at \$7,271,735. Wadsworth says. The allocations by states range from 39 to Delaware, up to 1047 to Pennsylvania. New York state got 1024; Ohio, 620, and other states from 100 to 800 trucks apiece. Some of them not only got motor trucks, he says, but canned goods from army stores left after the war and other supplies.

"Except for an occasional half filled bottle of the bottled in bond," said Mr. Smith, "we rarely find anything but the moonshiners' product."

"Canadian whisky? Well, once in a while we find a little in the lake ports. We have a case now pending in Sheboygan where we confiscated some of the Canadian whisky that was being smuggled in by way of a lake boat. Outside of the little we have captured in the lake ports, however, all we find is just the white moonshine."

"Occasionally we get some pretty heavy extract of some win of pepin. This is not very general, though. Now here is a bottle of 'Mince Meat Flavouring'—Not to be used for beverage purposes' that we picked up."

"Ugh! It smells like hair oil," said the inquisitive reporter.

"I can't say as to that, but its alcoholic content is 90 per cent, and I guess we were justified in taking it."

And so the old time bottled in bond seems to have disappeared from the market as well as from the homes. From now on the campaign is on the moonshine, and with an augmented force it is going to be dangerous work for the enterprising "shiners."

WOMAN IS BADLY HURT IN CRASH ON APPLETON STREETS

Mrs. Lena Alperovitz Tries to Jump From Car When Crash Is Unavoidable.

Thrown in the path of one of the wrecked cars while trying to escape from her own Ford automobile after it had been struck, Mrs. Lena Alperovitz, Escanaba, Mich., suffered serious injuries to her back in a collision Sunday morning at the corner of Washington and Drew-sts. Mrs. Alperovitz was on the way to St. Elizabeth hos-

WANTED
Honest, reliable, neat appearing Appleton man, one with knowledge of automobile salesmanship, to act as manager of well established automobile firm. Salary \$100 per week. Write ABC in care Post-Crescent, stating age and experience.

pital to see her husband, who has been confined there for 15 weeks with illness, and was taken to the institution herself for care following the crash.

In the automobile with the injured woman were her son, Samuel, and Samuel Zussman. The other car was a Franklin sedan owned by L. E. Sugarman and driven by Claude E. Graham, Syracuse N. Y., a representative of the Franklin Automobile company. The Ford was going south on Drew-sts. and Graham approached from the west on Washington-st.

Neither driver was able to stop in time to avert the collision. The cars came together with such force to cause both to be whirled around to face in the opposite direction from that in which they were going.

Mrs. Alperovitz saw what was about to happen, opened the door of the Ford and tried to jump to safety. The collision occurred too quickly, however. The machine swung around and its progress was interrupted suddenly as its jolt caused the woman to be thrown across the terrace to the Washington st. side. She landed on the pavement in such a way that she was pinned beneath a spring of the Franklin car.

The injured woman was rushed to the hospital in an ambulance, where it was found that her kidneys were badly injured. No bones were broken. None of the other occupants of either automobile was injured.

Both rear wheels of the Ford were broken and other damage inflicted. The Sugarman car also was damaged badly.

100 CHERRY PICKERS WILL GO TO ORCHARDS

About 100 Appleton cherry pickers will leave the city for the cherry country at 2:45 Wednesday afternoon, when two special cars will be attached to the regular train which comes into the city at that time. At Green Bay the coaches will be attached to the cherry pickers special which will start from Chicago.

A great many Appleton boys will not make the trip this year because they waited too long before making their application. Reports from the camp indicate a wonderful crop.

MEETING TAKES POSITION IN WINNEBAGO-CO. SCHOOLS

Arthur G. Meating, returning county superintendent of schools, has accepted an urgent invitation from Winnebago-co. to act as supervising teacher of rural schools there during the coming year. The position was made particularly attractive by the offer of a salary considerably larger than is paid the superintendents of either Winnebago or Outagamie counties.

Mr. Meating now is an instructor at the summer session of the Outagamie county teachers' training school at Kaukauna. He will assume his new duties in Winnebago county about August 15 but will maintain his residence in Appleton.

Automobile repairing. Ignition work a specialty. Call 1888-W.

Bad Luck and the Devil Pursued Him

"I don't think any one has had more bad luck and sickness than I have. In 1905 I had two ribs, an arm and collar bone broken in a railroad accident. Then I had pneumonia. After recovering I crossed a pasture when a bull chased me tossed me over the fence and broke my right leg. In 1910 I had typhoid fever; since then severe stomach and liver trouble, which no medicine or doctor touched until two years ago I got a bottle of May's Wonderful Remedy, which proved the first ray of light in thirteen years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Druggists Everywhere.—adv.

HUNDREDS ATTEND BIG MOOSE PICNIC

The Moose picnic at Waverly Independence day was attended by a crowd that comfortably filled the grounds. Members took their families and lunch baskets with them and spent the entire day on the beach. Bathing was the most popular pastime. Various kinds of amusements and contests were provided.

The prize winners of the contests were:
Boys' sack race—Edward Frieders, Robert LeBerge.

"Dizzy" contest—boys, Donald John, Claude Rogers; girls, Esther Paul, Anita Kabot.

Running race—boys, William Jarvis, Edward Frieders; girls, Irene Brach.

Dancing was provided in the evening and the floor of the pavilion was well filled until a late hour. The receipts were not definitely established Tuesday morning, but it was generally conceded they would amount to several hundred dollars.

PLATTEVILLE BUSINESS BLOCK BURNS DOWN

Platteville, Wis.—Fire which broke out on Sunday in the Ovitz transfer and bus barns completely destroyed the Stephens block. The Ford motor service garage lost nine automobiles and its quarters. The Ovitz Bus company lost six machines.

The lower floors of the structure is the headquarters and equipment of machine gun company No. 3 of the national guard. Capt. Cairry and Privates Schroeder and Webb succeeded in saving six head of mules and four officers' mounts, but not before Schroeder was overcome by smoke. Hewas removed to the Cunningham hospital. Most of the military equipment was saved.

The structure, a massive frame set on concrete foundation was as dry as tinder after the long heated spell and burned furiously. Exploding gasoline tanks gave heightened effect to the spectacular blaze.

Union Meeting
A meeting of the bricklayers, masons and plasterers union will be held Tuesday evening in Trades and Labor hall. Routine business will be transacted.
